

835 Companion Guide

Introduction

The Health Insurance Portability and Accountability Act (HIPAA) requires health insurance payers in the United States to comply with the EDI standards for health care as established by the Secretary of Health and Human Services if the provider wishes to submit certain types of healthcare transactions electronically. HIPAA does not mandate providers to become electronic submitters; it simply describes the content and format of the information you (the provider of care) must supply. This ANSI X12N implementation guide has been established as the standards of compliance for submission of the Claims Payment Advice.

First Health is providing the following information to serve only as a companion document to the HIPAA, ANSI X12N implementation guides. The use of this document is solely for the purpose of clarification. The information describes specific requirements to be used for processing data. This companion document supplements, but does not contradict any requirements in the X12N implementation guide. Additional companion documents/working partner agreements will be developed for use with other HIPAA standards, as they become available. In the event a PPO agreement established between you and First Health requires the use of a relational data element, we will mutually agree to the most appropriate location on the ANSI transactions for this information.

Additional information on the Final Rule for Standards for Electronic Transactions can be found at <http://www.hhs.gov/edwin/sep/finalrule/finalrule.htm>. The HIPAA Implementation Guides can be accessed at http://www.wps.mh.com/hpaa/HIPAA_80.asp.

Purpose

- First Health will use the 835 Claims Payment Advice transaction set to communicate the results of claim adjudications and/or claim prepayment for benefits only upon written request from the provider using the "Request Authorization" section in this Companion Guide. First Health will remit funds to the provider of care via a paper check. Electronic Funds Transfer will be available to First Health Network providers later in 2004.
