Handbook of Research on Multidisciplinary Perspectives on Managerial and Leadership Psychology Johnson, Rick D., 2021-01-22. The subject of leadership and managerial psychology exists as a sub-branch of psychology within the fields of industrial and organizational psychology. The Handbook of Research on Multidisciplinary Perspectives on Managerial and Leadership Psychology provides value uncovered by a collaboration of generalists and specialists who bring professional managerial and leadership opinions to light through narratives and research inclusive of fundamental theory principles that can be applied in practice and academia. This edited reference is focused on the enhancement of management research through managerial psychology while highlighting topics including business process knowledge management in diverse discipline situations and professions, corporate leadership.
