**Wendell Berry: Essays 1993-2017 (LOA #317)** Wendell Berry, 2019-05-21 The second volume of the Library of America's definitive two volume selection of the nonfiction writings of our greatest living advocate for sustainable culture. Writing with elegance and clarity, Wendell Berry is a compassionate and compelling voice for our time of political and cultural distrust and division, whether expounding the joys and wisdom of nonindustrial agriculture, relishing the pleasure of eating food produced locally by people you know, or giving voice to a righteous contempt for hollow innovation. He is our most important writer on the cultural crisis posed by industrialization and mass consumerism and the vital role of rural sustainable farming in preserving the planet as well as our national character. Now in celebration of Berry's extraordinary six decade long career, Library of America presents a two volume selection of his nonfiction writings prepared in close consultation with the author. In this second volume, forty-four essays from ten works turn to issues of political and social debate, big government, science and religion, and the meaning of citizenship following the tragedy of 9/11. Also included is his Jefferson Lecture to the National Endowment for the Humanities, *It All Turns on Affection* (2012). Berry's essays remain timely even urgent today and will resonate with anyone interested in our relationship to the natural world and especially with a younger politically engaged generation invested in the future welfare of the planet. INCLUDES *Life is a Miracle* AND SELECTIONS FROM *Sex Economy*, *Freedom*, *Community*, *Another Turn of the Crank*, *Citizenship Papers*, *The Way of Ignorance*, *What Matters*, *Imagination in Place*, *It All Turns on Affection*, *Our Only World*, *The Art of Loading Brush*. Olmstead, 2021-03-16 A superior exploration of the consequences of the hollowing out of our agricultural heartlands Kirkus Reviews In the tradition of Wendell Berry a young writer wrestles with what we owe the places we've left behind In the tiny farm town of Emmett Idaho there are two kinds of people those who leave and those who stay Those who leave go in search of greener pastures better jobs and college Those who stay are left to contend with thinning communities punishing government farm policy and environmental decay Grace Olmstead now a journalist in Washington DC is one who left and in *Uprooted* she examines the heartbreaking consequences of uprooting for Emmett and for the greater heartland America Part memoir part journalistic investigation *Uprooted* wrestles with the questions of what we owe the places we come from and what we are willing to sacrifice for profit and progress As part of her own quest to decide whether or not to return to her roots Olmstead revisits the stories of those who like her great grandparents and grandparents made Emmett a strong community and her childhood idyllic She looks at the stark realities of farming life today identifying the government policies and big agriculture practices that make it almost impossible for such towns to survive And she explores the ranks of Emmett's newcomers and what growth means for the area's farming tradition Avoiding both sentimental devotion to the past and blind faith in progress Olmstead uncovers ways modern life attacks all of our roots both metaphorical and literal She brings readers face to face with the damage and brain drain left in the wake of our pursuit of self improvement economic opportunity and so called growth Ultimately she comes to an uneasy conclusion for herself one can cultivate habits and practices that promote rootedness wherever one may be but some things once lost cannot be recovered

**University** Stanley Hauerwas, 2008-04-15 In this book controversial and world renowned theologian Stanley Hauerwas tackles the issue of theology being sidelined as a necessary discipline in the modern university It is an attempt to reclaim the knowledge of God as just that knowledge Questions why theology is no longer considered a necessary subject in the modern university and explores the role it should play in the development of our knowledge Considers how theology is often excluded from the knowledges of the modern university because these are constituted by an understanding of time necessary to make economic and state realities seem inevitable Argues that it is precisely this difference that makes Christian theology an essential resource for the university to achieve its task that is to form people who are able to imagine a different world through critical and disciplined reflection Challenges the domesticated character of much recent theology by suggesting how prayer and the love of the poor are essential practices that should shape the theological task Converses with figures as diverse as Luigi Giussani David Burrell Stanley Fish Wendell Berry Jeff Stout Rowan Williams and Sheldon Wolin Published in the new and prestigious Illuminations series
