To ensure you get the best performance from your headset

- Keep the distance between your headset and device as small as possible and avoid placing your body in either alignment in the signal path.
- If you usually use your mobile phone with your right hand, wear the headset on your right ear.
- Covering your headset or device could affect its performance so keep constant to minimum.

Pairing means a unique and encrypted wireless connection between two Bluetooth devices when they agree to communicate with each other.

In Pairing mode, two devices should be placed close enough.
