The Palgrave Handbook of Critical Music Industry Studies David Arditi,Ryan Nolan,2024-09-28 The Handbook of Critical Music Industry Studies provides students and researchers with the means to think about how the performance recording and publishing of music could be if we do things differently People are hungry for a more equitable music performance and recording system The industry exudes patriarchy white supremacy cultural imperialism ableism and worker exploitation In the context of gendered e g MeToo and TimesUp and racialized e g Black Lives Matter inequity rampant precarity and casualization and modes of musical dissemination that are changing faster than policymakers and regulatory bodies can keep up with the timing for assembling such an interdisciplinary collection could not be more appropriate Essays in this handbook will tackle power structures at root in the music industry and the academic study of the field Topics covered include the politics of representation and power in the global music industries the labor of music music as media including data and algorithmic culture and copyright intellectual property among others Chapter 35 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) , The Dieselgate Marco Frigessi di Rattalma,2017-01-20 This book explains compares and assesses the legal implications of Dieselgate within a range of selected jurisdictions and at the EU international and comparative law level The book analyses the US EPA VW 14 7 billion

dollar settlement of 2016 one of the largest civil settlements in the history of environmental law As it shows the Dieselgate affair has raised a host of issues concerning corporate and social responsibility tort liability environmental liability contractual defective products warranty and false environmental claims in a range of jurisdictions Issues like repurchasing or retrofitting cars from consumers and making direct payments to consumers through car buy backs and compensation are analysed Further the book relates how Dieselgate has also contributed to the discussion about the introduction of more effective collective measures of redress for consumers such as class actions in Germany France Italy and the UK The book subsequently reviews the criminal offences Volkswagen is currently confronted with in Germany France and Italy i e fraud and manipulation of capital markets by belatedly providing shareholders with essential information relevant for the share value and potentially environmental crimes It demonstrates how Dieselgate has sparked new debates in Germany Italy France and the UK about the need to introduce enterprise liability for organised crimes lack of compliance and control structures and intentional violations of the law Lastly the book discusses how EU law has sought to respond to Dieselgate and thus investigates the controversial EU Regulation No 2016 646 introducing a temporary conformity factor of 2.1 equivalent to a 110% increase on the current limit to be applied for NOx in the new RDE testing cycle and the works of the EU committee of inquiry into Emissions Measurements in the Automotive Sector EMIS

Lemon-Aid New and Used Cars and Trucks 2007-2018 Phil Edmonston, 2018-02-03 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market Dr Phil along with George Iny and the Editors of the Automobile Protection Association pull no punches *Focus On: 100 Most Popular Station Wagons* Wikipedia contributors, *Focus On: 100 Most Popular Sedans* Wikipedia contributors, **The Truth About Energy** John K. White, 2024-02-08 This book provides everyone interested in driving the renewable energy transition with a foundation to understand modern energy technology *Focus On: 100 Most Popular Compact Cars* Wikipedia contributors, **Pitfalls of Corporate Leadership** Francis J. Clauss, 2023-03-30 Our nation is still reeling from the 346 fatalities suffered on two flights of the Boeing 737 MAX 8 planes the first in May 2017 and the second in March 2019 These are just one of the series of costly and deadly consequences of defective products described in this book Besides the Boeing 737 planes the examples of bad products include automobiles electrical energy networks pipelines bridges and other large structures banks drinkable water and financial services While the immediate or proximate causes of the disasters have been bad design or bad production the root or underlying causes have been bad corporate management and business cultures caused by corporate leaders The final five chapters provide short essays on product design production quality control management and culture and what the leaders of our private companies and government agencies might do to reduce the pitfalls that have led to so many defective products and their dire consequences **Ecopiety** Sarah McFarland Taylor, 2019-11-12 Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will

save the earth The stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits No need to make any fundamental structural changes The trick is simply for the consumer to buy the right things and shop our way to a greener future It s time for a reality check Ecopiety offers an absorbing examination of the intersections of environmental sensibilities contemporary expressions of piety and devotion and American popular culture Ranging from portrayals of environmental sin and virtue such as the eco pious depiction of Christian Grey in Fifty Shades of Grey to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in True Blood the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action

New Frontiers of the Automobile Industry Alex Covarrubias V.,Sigfrido M. Ramírez Perez,2019-11-28 Analysing developments in digital technologies and institutional changes this book provides an overview of the current frenetic state of transformation within the global automobile industry An ongoing transition brought about by the relocation of marketing design and production centres to emerging economies and experimentation with new mobility systems such as electrical autonomous vehicles this process poses the question as to how original equipment manufacturers OEMs and newcomers can remain competitive and ensure sustainability With contributions from specialists in the automobile sector this collection examines the shifts in power and geographical location occurring in the industry and outlines the key role that public policy has in generating innovation in entrepreneurial states Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry this book will provide valuable reading for those researching internationalization and emerging markets business strategy and more specifically the automotive industry

Strategic Risk Leadership Torben Juul Andersen,Peter C. Young,2021-09-26 This casebook extends Strategic Risk Leadership Engaging a World of Risk Uncertainty and the Unknown bringing theory and practice grounded in the first book to life with an array of applicable real world examples The book enables critical thinking about the current state of risk management and ERM demonstrating contemporary shortcomings and challenges from real life cases drawn from a global selection of well known organizations It confronts modern risk management practices and discusses what leaders should do to deal with unpredictable environments Providing a basis for developing more effective risk management approaches the book identifies shortcomings of contemporary approaches to risk management and specifies how to deal with the major risks we face today illuminated by a variety of comprehensive global examples It also provides valuable insights on these approaches for managers and leaders in general including risk executives and chief risk officers as well as advanced risk management students End of chapter cases illustrate both good and bad risk management approaches

as useful inspiration for reflective risk leaders This book will be a hugely valuable resource for those studying or teaching risk management
