Innovations and Creations George Manus, 2018-04-09 My main hobby became inventions and creations mainly related to Golf I took it as my first challenge to construct the most compact collapsible Golf Trolley ever seen As a consequence of working with the above mentioned challenge thoughts about reinventing the wheel was quite logical as many golfers prefer to use an electric trolley As I am a keen golfer myself I constantly had in mind how one could improve ones game by means of training aids I first concentrated on a well known challenge that most of us amateur golfer are facing namely to keep the head and eyes behind the golf ball at impact Not to confuse the reader too much it is certainly difficult enough to understand a lot of the contents in the book I decided to split between the various groups of developments leading to what in the end became Golf Trolleys MACWheel The Short Game Coach Golf Putters and Other Training Aids for Golf Along the way I have made some simple documentation and taken photos of some of the models I made mainly to prove the feasibility of the ideas and as background for the patent office to make drawings and to get an understanding of the various principles I make excuses for my poor photo graphical skills I have in this book tried to give an extract of what I have been through in my inventive world as a pensioner so far by presenting some of the material following the sequence of the time when the ideas were tested Very little can give me more pleasure than the challenge and excitement forming part of creating something that one think no one else has done as for example to reinvent the wheel Who can be so stupid as to try that The South of Spain autumn 2014 George Manus

DePuy Henry G. Gole, 2008-09-26 This excellent biography of one of the US Army's unsung heroes provides a much needed re-examination of the early post Vietnam Army. Bowling Green Daily News. By the 1970s the United States Army was demoralized by the outcome of the Vietnam War and shifting attitudes at home. The institution as a whole needed to be reorganized and reinvigorated and General William E DePuy was the man for the job. In 1973 DePuy was appointed commander of the newly established Training and Doctrine Command TRADOC. By integrating training doctrine combat developments and management in the US Army he cultivated a military force prepared to fight and win in modern war. General William E DuPuy is the first full length biography of this key figure in American military history. With extensive interviews with those who knew DePuy as well as access to his personal papers Henry G Gole chronicles and analyzes his unique contributions to the Army and nation. Gole guides the reader from DePuy's boyhood and college days in South Dakota through the major events and achievements of his life. During World War II DePuy served in the 357th Infantry Regiment in Europe from the Normandy invasion until 1945 when he was stationed in Czechoslovakia. DePuy was asked by George Patton to serve as his aide; he supervised clandestine operations in China; he was instrumental in establishing Special Forces in Vietnam and he briefed President Lyndon B Johnson in the White House. But his finest contribution was fixing a broken Army.
