Census of Population and Housing (1990): Effectiveness of Quality Assurance , **The Violence of Care** Sameena Mulla, 2014-08-29 Winner 2017 Margaret Mead Award presented by the American Anthropological Association and the Society for Applied Anthropology Honorable Mention 2015 Eileen Basker Memorial Prize presented by the Society for Medical Anthropology Analyzes the ways in which nurses work to collect and preserve evidence while addressing the needs of sexual assault victims as patients Every year in the US thousands of women and hundreds of men participate in sexual assault forensic examinations Drawing on four years of participatory research in a Baltimore emergency room Sameena Mulla reveals the realities of sexual assault response in the forensic age Taking an approach developed at the intersection of medical and legal anthropology she analyzes the ways in which nurses work to collect and preserve evidence while addressing the needs of sexual assault victims as patients Mulla argues that blending the work of care and forensic investigation into a single intervention shapes how victims of violence understand their own suffering recovery and access to justice in short what it means to be a victim As nurses race the clock to preserve biological evidence institutional practices technologies and even state requirements for documentation undermine the way in which they are able to offer psychological and physical care Yet most of the evidence they collect never reaches the courtroom and does little to increase the number of guilty verdicts Mulla illustrates the violence of care with painstaking detail illuminating why victims continue to experience what many call secondary rape during forensic intervention even as forensic nursing is increasingly professionalized Revictimization can occur even at the hands of conscientious nurses simply because they are governed by institutional requirements that shape their practices The Violence of Care challenges the uncritical adoption of forensic practice in sexual assault intervention and post rape care showing how forensic intervention profoundly impacts the experiences of violence justice healing and recovery for victims of rape and sexual assault

Measuring Race and Ethnicity Larry E. Davis, Rafael J. Engel, 2010-10-26 Racial and ethnic issues stand at the core of social political and economic concerns in an increasingly diverse America Accordingly how individuals from the various ethnic groups regard themselves and others is a salient focus of research studies across the disciplines Measuring

Race and Ethnicity gathers psychological measures of common phenomena such as racial identity acculturation and intra and intergroup relations enabling researchers to compare concepts across groups and better evaluate differences and disparities. Researchers in psychology, social work and public health examining cultural and race related topics will find an immediately relevant source of valid and reliable scales in *Measuring Race and Ethnicity* **Tree** Jennifer Ventriglia, 2008-07-04. Tree is a short semi graphic memoir about a young girl's transcendence in womanhood. The third grade drawings help stimulate certain topics while promoting a lighter mood *California Law Review*, 1994 **Real Research** Liahna Gordon, 2019-02-21. Real Research: Research Methods Sociology Students Can Use is an innovative text that takes a holistic approach to the subject by discussing each step in the research process within the context of a particular method. With no generalizations about concepts that apply to only some research methods but not others, students can jump into the first research method within the first two weeks of class. After an overview of data collection in the first chapter, subsequent chapters focus on eight specific quantitative and qualitative methods most frequently used in sociology. The Second Edition includes a new chapter on focus groups, updated Real Research profiles of individuals using research methods in a wide range of careers and examples of common student errors to streamline learning **World Englishes--problems, Properties and Prospects** International Association for World Englishes. International Conference, 2009. Print. Begrüßung Der kan printes 10 sider ad gangen og max 40 sider pr session **American Motorcyclist**, 1999-01. This book prepares educational leaders with the knowledge needed to critically evaluate, select and use technological tools to be effective school leaders. Authors Jones and Kennedy explore the technology tools needed to support the full range of responsibilities of a school leader, including management and administration, personnel and evaluation, security and safety, instructional leadership, organizational culture and climate, external relationships and action research. Each chapter unpacks advantages and pitfalls of various technological tools and includes case scenarios that contextualize these ideas for readers. Chapter content is also aligned with The Professional Standards for Educational Leaders (PSEL), the National Educational Leadership Preparation Standards (NELP) and the International Society of Technology Standards in Education (ISTE) standards. This timely and important book adds to the toolbox for educators preparing to become effective and cutting edge school leaders **For the Family?** Sarah Damaske, 2011-10-03. In the contentious debate about women and work, conventional wisdom holds that middle class women can decide if they work while working class women need to work. Yet even after the recent economic crisis, middle class women are more likely to work than working class women. Sarah Damaske deflates the myth that financial needs dictate if women work, revealing that financial resources make

it easier for women to remain at work and not easier to leave it Whether the decision is to stay home or go to work women from all classes say work decisions are made for their families In For the Family Sarah Damaske at last provides a far more nuanced and richer picture of women work and class than the one commonly drawn **What Is Race?** Joshua

Glasgow, Sally Haslanger, Chike Jeffers, Quayshawn Spencer, 2019-05-15 Across public discourse in the media politics many branches of academic inquiry and ordinary daily interactions we spend a lot of time talking about race race relations racial violence discrimination based on race racial integration racial progress It is fair to say that questions about race have vexed our social life But for all we speak about race do we know what race is Is it a social construct or a biological object Is it a bankrupt holdover from a time before sophisticated scientific understanding and genetics or can it still hold up in biological genetic and other types of research Most fundamentally is race real In this book four prominent philosophers and race theorists debate how best to answer these difficult questions applying philosophical tools and the principles of social justice to cutting edge findings from the biological and social sciences Each presents a distinct view of race Sally Haslanger argues that race is a socio political reality Chike Jeffers maintains that race is not only political but also importantly cultural Quayshawn Spencer pursues the idea that race is biologically real And Joshua Glasgow argues that either race is not real or if it is it must be real in a way that is neither social nor biological Each offers an argument for their own view and then replies to the others Woven together the result is a lively debate that opens up numerous ways of understanding race Above all it is call for sophisticated and principled discussion of something that significantly permeates our lives **The New Race**

Question Joel Perlmann, Mary C. Waters, 2002-11-14 The change in the way the federal government asked for information about race in the 2000 census marked an important turning point in the way Americans measure race By allowing respondents to choose more than one racial category for the first time the Census Bureau challenged strongly held beliefs about the nature and definition of race in our society The New Race Question is a wide ranging examination of what we know about racial enumeration the likely effects of the census change and possible policy implications for the future The growing incidence of interracial marriage and childrearing led to the change in the census race question Yet this reality conflicts with the need for clear racial categories required by anti discrimination and voting rights laws and affirmative action policies How will racial combinations be aggregated under the Census s new race question Who will decide how a respondent who lists more than one race will be counted How will the change affect established policies for documenting and redressing discrimination The New Race Question opens with an exploration of what the attempt to count multiracials has shown in previous censuses and other large surveys Contributor Reynolds Farley reviews the way in which the census has traditionally measured race and shows that although the numbers of people choosing more than one race are not high at the national level they can make a real difference in population totals at the county level The book then takes up the debate over how the change in measurement will affect national policy in areas that rely on race counts especially in civil rights law but also in

health education and income reporting How do we relate data on poverty graduation rates and disease collected in 2000 to the rates calculated under the old race question A technical appendix provides a useful manual for bridging old census data to new The book concludes with a discussion of the politics of racial enumeration Hugh Davis Graham examines recent history to ask why some groups were determined to be worthy of special government protections and programs while others were not Posing the volume s ultimate question Jennifer Hochschild asks whether the official recognition of multiracials marks the beginning of the end of federal use of race data and whether that is a good or a bad thing for society The New Race Question brings to light the many ways in which a seemingly small change in surveying and categorizing race can have far reaching effects and expose deep fissures in our society A Volume in the Russell Sage Foundation Census Series
