

14 Channel Personal FRS 2-Way Radio with 38 Quiet Code, Vibrate, Splash Proof and VOX

Family Radio Service (FRS) is a license-free, two-way, short-range voice radio service that lets families and groups keep in touch with each other on specific reserved channels.

Your RadioShack 14 Channel Personal FRS 2-Way Radio is a lightweight, palm-sized radio you can use to talk with another person who has a FRS radio set to the same frequency as your radio.

Your radio has auto-squelch, so you will not hear anything on a channel unless someone is transmitting nearby on the same channel. You can use MON (monitor) key to temporarily turn off auto-squelch to hear weaker, distant transmissions.

You can connect an optional speaker/microphone and earphone to the radio (neither supplied, available at your local RadioShack store).

Your radio's display has a backlight that turns on for about 10 seconds when you press any key except PTT.

Your radio's other features include:

14 Channels – provide clear communications for up to two miles.

Channel Scan – use to find other FRS users.

38 Quiet Code – eliminates interference from other radios that are not tuned to the same channel and quiet code as your radio.

Courtesy Tone – at the end of conversation, it generates for end of message acknowledgement.

Key Beep – short beep generation for key pressed acknowledgement (except PTT and MON).

Lock – locks ^/SCAN, w/CALL and QUIET/MENU.

Vibration Alert – vibrates for 2 seconds when receiving signal if the radio is idle for more than 30 seconds.

Splash Proof (JIS level 4) – provide excellent waterproof and capability.

Voice Operated Transmission (VOX) – enables standalone usage and works with handsfree accessory.

INSTALLING BATTERIES

Your radio requires four AAA alkaline or rechargeable nickel-cadmium (Ni-Cd) / nickel-metal hydride (Ni-MH) batteries (not supplied) for power. For the best performance and longest life, we recommend RadioShack batteries.

Cautions:

Do Use only fresh batteries of the required size and recommended type.

Do Do not mix old and new batteries, different types of batteries (alkaline or rechargeable), or rechargeable batteries of different capacities.

1. Rotate VOL/OFF counterclockwise until it clicks to turn off the radio.

2. Pull down the latch on the battery compartment cover, then remove the cover.
