Baum,J. E. Singer,Jerome L. Singer,2014-01-14 First published in 1982 It is not difficult to understand why interest in psychological aspects of energy production consumption and conservation has increased during the past decade The stresses of living or working near power plants the problems inherent in reducing fuel consumption and the many applications of behavioral science to these issues have all received attention of late This volume the third in a series is concerned with these issues the ways in which psychology can contribute to understanding and helping to solve what has generally been termed an energy crisis **Labor Relations Reference Manual** ,2000 Vols 9 17 include decisions of the War Labor Board Fundraising, Flirtation and Fancywork Annette Shiell,2014-07-24 Fundraising Flirtation and Fancywork examines the history and development of the charity bazaar movement in Australia Transported from Britain the charity bazaar played an integral role in Australian communal social and philanthropic life from the early days of European settlement Ranging in size and scale from simple sales of goods to month long extravaganzas charity bazaars were such a popular and successful means of raising revenue that they sustained the majority of the nation s major public and religious institutions The nineteenth century charity bazaar was a paradox On the one hand it encapsulated responsibility and civic duty through its raison d etre which was the provision of support for charitable causes On the other it encouraged a loosening of social and gendered restraint as women of the middle and upper classes repositioned themselves in a public

space where the acquisition of material goods gambling and flirting with men was actively encouraged From their inception bazaars were the domain of women They provided middle and upper class women with an opportunity to exercise their organisational creative and social skills outside the domestic sphere within a framework of socially acceptable philanthropic endeavour Women s dominance and public role in charity bazaars destabilised conventional gender relations The nucleus of the charity bazaar was the fancywork produced by women for sale on the stalls Bazaars were an accessible and important repository for the display and sale of women s creative work and the bazaar movement was instrumental in shaping women s fancywork Bazaars were revered and reviled in colonial Australia Despite the criticisms and the many social and cultural changes that occurred in nineteenth century Australia charity bazaars continued to escalate in number popularity and complexity They predated and influenced the great international exhibitions and the development of larger shops and emporiums and by the end of the century had evolved into themed entertainment and shopping spectacles known as grand bazaars Charity bazaars mirrored and shaped the social customs mores and fashions of their time and are a rich largely untapped interdisciplinary historical source

Approaches to Corporate Social Responsibility Stefan Markovic,Adam Lindgreen,Nikolina Koporcic,Milena Micevski,2023-08-25 Following recent growth of ethical consumerism customers and other stakeholders increasingly pressure organizations to be socially responsible and minimize their negative impact on the environment Accordingly a plethora of firms have integrated corporate social responsibility CSR at the center of their business strategies and actions Whilst this has resulted in many firms meeting their broader responsibilities toward society and the environment some firms have used CSR in a manipulative and insincere way As stakeholders become aware of such misuse of CSR largely thanks to the rapid evolution of information technologies they start to penalize firms by spreading negative word of mouth about them and specifically about their CSR knowledge values and actions Now more than ever before stakeholders are increasingly critical and cautious in their assessments of firms CSR knowledge values and actions On this background this edited volume sheds light on different internal and external perspectives spanning CSR knowledge values and actions It shares theoretical practical and case based insights on the broader topic and can be of interest to researchers academics practitioners and advanced students in the fields of CSR and business ethics knowledge management strategy and marketing

Cultural Carrying Capacity and Stakeholders' Attitudes Associated with the Deer Crop Damage Issue in Michigan Donna Lynne Minnis,1996

Just an Accident Amy Montgomery,2004 There was no blood at the scene not even a cut on his body Yet on May 25 1999 when the top of a massive beech tree snapped off and slammed into 33 year old Adirondack logger Scott

Remington his bones exploded The terrain was unforgiving and the area too remote for cell phones So the fact that medics reached him is a miracle So is the aftermath of a freak accident that felt like death to a woodsman who could never sit still More than the story of one man this is also about a small town that rescued Scott from despair and by accident discovered the meaning of life In this well written and extremely compelling book Amy Montgomery draws us into the essence of living with a spinal cord injury through Scott Remington s moving story Her portrayal of his struggle to survive and live a meaningful life makes us care as much as the members of his family In an instant both Scott and I became members of a club that neither of us would ever have wanted to join But instead of self pity Scott has demonstrated relentless energy drive and willpower that no disability can diminish Montgomery has captured not only the drama of an accidental tragedy but the power of the human spirit to overcome it Christopher Reeve Amy donates 10% of her 938 per book royalties to the Christopher Reeve Foundation
