creating programs and strategies to combat inequality and discrimination in the nation's health care system **To Make the Hands Impure** Adam Zachary Newton, 2016-01-01 How can cradling, handling, or rubbing a text be said ethically to have made something happen? What as readers or interpreters may come off in our hands in as we maculate or mark the books we read. For Adam Zachary Newton, reading is an embodied practice wherein ethics becomes a matter of tact in the doubled sense of touch and regard. With the image of the book lying in the hands of its readers as insistent refrain, *To Make the Hands Impure* cuts a provocative cross-disciplinary swath through classical Jewish texts, modern Jewish philosophy, film, and performance literature, translation, and the material text. Newton explores the ethics of reading through a range of texts from the Talmud and Midrash to Conrad's *Nostromo* and Pascal's *Le Mémorial* from works by Henry Darger and Martin Scorsese to the National September 11 Memorial and a synagogue in Havana, Cuba. In separate chapters, he conducts masterly treatments of Emmanuel Levinas, Mikhail Bakhtin, and Stanley Cavell by emphasizing their performances as readers, a trebled orientation to Talmud, novel, and theater/film. *To Make the Hands Impure* stages the encounter of literary experience and scriptural traditions, the difficult and the holy, through an ambitious, singular, and innovative approach, marked in equal measure by erudition and imaginative daring.

Process and Analysis George W. Shields, 2012-02-01 *Process and Analysis* brings together an unprecedented collection of the world's leading contemporary process and analytic philosophers to explore philosophical topics of common interest. The contributors examine a wide variety of explicit and implicit commonalities and differences of approach to such central philosophical issues as the nature and status of events, time/space relations, particulars, and God. This unique collection demonstrates that both traditions have important things to say to one another. In fact, a largely ignored conversation between the two traditions has been carried on since at least the days of Whitehead's influence on early Cambridge analytic philosophy. This long-awaited volume is an invaluable research tool for scholars and students alike working in the areas of analytic and process philosophy.
