**Investigating University-School Partnerships** Janice L. Nath,Irma N. Guadarrama,John Ramsey,2011-04-01

Investigating University School Partnerships A Volume in Professional Development School Research the fourth book in the PDS Research Series developed by the same editors includes a collection of organized papers that represent the best and latest examples of practitioner thinking research and program design and evaluation in the field at the national level A wide variety of authors from the professional community of PDS researchers practitioners and other stakeholders engage the reader in research or case studies that foreground real life authentic contexts which in turn are designed to generate and fashion more questions and ideas The volume s contents of 26 chapters is divided into five areas 1 PDS Evaluation 2 Teacher Research and Inquiry 3 PDS Stakeholders Studies 4 Studies for Thought Ideas for Development and 5 Teaching Content Areas in PDSs As a whole the volume of papers maintains a consistency within a cohesive undercurrent that illustrates the spirited and visionary purpose of professional development schools to advance educational reform that leads to substantive change

Exposing a Culture of Neglect Matthew D. Davis,2006-04-01 In this book Professor Davis illustrates the often unexpected reach of historical research intended originally to fill a knowledge gap He found a forgotten figure from the past who as a scholar and teacher had contributed significantly to education Manuel s story warranted attention but in reconstructing it Professor Davis discovered leads to a more complex account in which the key actor his ideas and certain precise albeit dynamic social conditions intersected and influenced each other In the end the book not only fills a gap making the history of education in Texas and the United States more complete it also underscores the thrust of other recent contributions to Latin American studies in casting doubt on the reliability of previously accepted standard histories These accounts now seem dated and suspiciously wrong headed New research like that of Professor Davis pointedly suggests the old histories need to be reconceptualized reorganized and rewritten Methodologically and substantively his book advances work on this agenda Specifically it provokes fresh thinking about the now indisputably linked histories of education research Mexican Americans and racism in the United States

*Mental Retardation and Developmental Disabilities Abstracts* ,1977
