Carving a pumpkin can be a lot of fun during the month of October. First, you need to pick out a pumpkin and a design. Next, cut a big circle at the top of your pumpkin and remove the insides. You can toast the seeds later for a tasty treat. Then you will need to trace your design on the outside of your pumpkin. This will help you know what to cut. Have an adult make the cuts. Finally, place a light inside your pumpkin and enjoy!

October and March are both great months with lots of fun things happening. October is the beginning of fall and March marks the beginning of spring. In fall, the weather starts to get cooler but spring means that the cold weather is over! Both months have different holidays that people all over the world celebrate. There are lots of months in the year but October and March are two of the best ones.

Fall is an amazing time of year! The beautiful, big trees begin to change their leaves from boring greens to amazing shades of yellow, red and oranges. The warm, sticky weather of summer begins to turn into cool, crisp days and nights. Kids are trading in their swim-suits and flip flops, for boots and jackets! Fall is full of pumpkin flavored foods. Children dress up and go trick or treating in October and we give thanks for everything we have in November.

*Powerful Writing Structures* Adrienne Gear, 2020-02-06 This timely book uses thinking structures to deepen student writing. It revolves around brain pockets to help students appreciate the qualities of different writing forms. Some powerful examples include memory pockets for personal narrative writing, fact pockets for nonfiction, and imagination pockets for story writing. Detailed lesson plans are featured along with sample anchor books and book lists. Based on extensive classroom testing, student samples throughout the book illustrate this unique approach to teaching writing. Suggestions for setting up an effective writing program and assessment tips for guiding instruction complete this comprehensive approach to developing a year-long writing program.

*Empowering Readers* Mary L. Hoch, Jana L. McNally, 2019-12-11 To address Common Core State Standards CCSS for reading and language, today's educators strive to help their students develop higher-level understanding with challenging materials. In this book, we share our method for implementing an integrated strategy approach for helping readers understand expository text. This approach can be used to accompany and extend text structure instruction on the five most commonly used expository text structures: compare and contrast, cause and effect, problem and solution, description, and sequence. Within this approach, we designed a method for using key vocabulary in a way that helps readers think about the structure of the text. To aid in the development of higher-level understanding with challenging materials, this approach integrates other essential reading comprehension components that foster understanding, such as predicting and summarizing. The Structure Sort integrated approach embeds these essential strategies before, during, and after reading to empower students to make connections and build comprehension at all stages of reading.

**Progress-Monitoring Comprehension Assessments: Grades 5-6** Newmark Learning, 2009 Document students' mastery of specific comprehension strategies and prepare them for standardized reading assessments. Each book includes multiple assessments for specific strategies, including summarize, identify main idea and supporting details, make inferences, compare and contrast, and more. Assessments include multiple choice and constructed response questions.

*A Local Assessment Toolkit to Promote Deeper Learning* Karin Hess, 2018-02-28 For years, educators have turned to the Hess Cognitive Rigor Matrices (CRM) when it comes to assessment. Now, for the first time, the modules are packaged into one resource to help teachers evaluate the quality and premise of their current assessment system.
