

Digital Vehicle Compass

63-1120

OWNER'S MANUAL — Please read before using this equipment.

Thank you for purchasing a RadioShack Digital Vehicle Compass. Your compass conveniently provides accurate heading information inside your vehicle. It incorporates the same magnetic sensor technology that is used in factory-installed vehicle compasses. The compass electronically separates the Earth's magnetic field from the magnetic fields generated by your vehicle, to provide accurate compass headings.

Automatic Shut-Off — conserves power by turning off the compass about 10 minutes after you park the vehicle when there are no significant changes in the surrounding magnetic fields.

Magnetic Distortion Detection — alerts you when outside magnetic interference is affecting compass accuracy.

INSTALLING BATTERIES

Your compass requires two AAA batteries (not supplied) for power. For the best performance and longest life, we recommend RadioShack batteries. Battery life is about 11 months (based on an average of 8 hours of compass use and 2 hours of backlight use per week).

Cautions:

- Use only fresh batteries of the required size and recommended type.
- Do not mix old and new batteries, different types of batteries (standard, alkaline, or rechargeable), or rechargeable batteries of different capacities.
