Knadler, 2007-06 Denying its formative dialogues with minorities the white race Stephen P Knadler contends has been a fugitive race While the white question like the Negro question and the woman question a century earlier has garnered considerable critical attention among scholars looking to find new anti race strategies these investigations need to highlight not just the exclusion of people of color but also examine minority writers resistance to and disruption of this privileged racial category Highly original wonderfully detailed and thought provoking says Professor Candace Waid of Knadler s intellectually challenging book Although excluded people of color looked back in anger laughter and wisdom to challenge the unexamined lie of a self evident whiteness Looking at fictional and nonfictional texts written between 1850 and 1984 The Fugitive Race traces a long cultural and literary history of the ways African Americans Asian Americans Jewish Americans Chicanos gays and lesbians have challenged the shape and meaning of so called white identities From the antebellum period to the 1980s the belief in a white racial superiority or simply a white difference has denied that people of color might and do have an influence on the supposedly pure or protected character of whiteness In contrast this book attempts to define a new way of analyzing minority literature that questions this segregated color line In addition to creating a new racial awareness many writers of color tried to interfere in the historical formulation of whiteness They created unsettling moments when white readers had to see themselves for the first time from the outside in or from the critical perspective of non white writers These writers including William Wells Brown Pauline Hopkins Abraham Cahan Young hill Kang Zora Neale Hurston and Arturo Islas did not simply resist assimilation They sought to dismantle the white identities that lay as the foundation of the master s house Arturo Islas Arturo Islas, 2003-04-30 Prolific poet essayist and short story writer Arturo Islas 1938 1991 is well known for his two insightful novels The Rain God and Migrant Souls His untimely death to AIDS truncated a productive and influential career that has left a yawning gap in Latino letters Islas was a dedicated thoughtful and style conscious writer who promoted a sense of responsibility to community and art for both writers and critics The quality of his commitment was matched by the example he set in delving into the esthetics and psychology of gay creativity an exploration that took him to uncompromising confrontations with his own traditional upbringing Islas has made his mark as a writer of the U S Mexico border and a leader at the forefront of exploring more social psychological and philosophical boundaries As a Chicano from El Paso as a gay Latino writer Islas surmounted many boundaries borders and established roles in this he is a standard bearer for all of Latino literature A seasoned scholar and professor in the English Department at Stanford University for most of his professional life Islas maintained an extensive collection of works records and papers The present volume is the product of another Stanford graduate Frederick Luis Aldama who combed through the Islas archive and recovered the short fiction poetry and essays on Chicano letters that Islas did not have the opportunity to publish Aldama has organized these

materials and edited them so that they may be accessible and broaden the vision of Arturo Islas as writer and thinker

THEMATIC CONCERNS IN THE NOVELS OF R. K. NARAYAN Dr. Nawkhare Nitin Ramchandra, 2021-05-06 The book is basically a thematic study of R K Narayan's novels and a reference to his short stories has been made only in passing. The major themes that emerge from Narayan's novels are love and marriage or man woman relationship, family relationships, under scoring the father son relationship, socio cultural and political scene of the country during the last fifty years and the Hindu ethos highlighting renunciations as an ideal of the Hindu way of life. For the first time the major themes of Narayan's novels have been clearly worked out and the identity of Malgudi has been convincingly established by the author.

Domestic Negotiations Marci R. McMahon, 2013-07-01 This interdisciplinary study explores how US Mexican and Chicana authors and artists across different historical periods and regions use domestic space to actively claim their own histories. Through negotiation, a concept that accounts for artistic practices outside the duality of resistance, accommodation, and self-fashioning, Marci R McMahon demonstrates how the very sites of domesticity are used to engage the many political and recurring debates about race, gender, and immigration affecting Mexicanas and Chicanas from the early twentieth century to today. Domestic Negotiations covers a range of archival sources and cultural productions including the self-fashioning of the chili queens of San Antonio, Texas; Jovita Gonzales's romance novel *Caballero*; the home economics career and cookbooks of Fabiola Cabeza de Baca; Sandra Cisneros's purple house controversy and her acclaimed text *The House on Mango Street*; Patssi Valdez's self-fashioning and performance of domestic space in *Asco*; and as a solo artist, Diane Rodriguez's performance of domesticity in Hollywood television and direction of domestic roles in theater and Alma Lopez's digital prints of domestic labor in Los Angeles. With intimate close readings, McMahon shows how Mexicanas and Chicanas shape domestic space to construct identities outside of gendered, racialized, and xenophobic rhetoric.

Historical Dictionary of U.S. Latino Literature Francisco A. Lomelí, Donaldo W. Urioste, María Joaquina Villaseñor, 2016-12-27 U S Latino Literature is defined as Latino literature within the United States that embraces the heterogeneous inter groupings of Latinos. For too long U S Latino literature has not been thought of as an integral part of the overall shared American literary landscape but that is slowly changing. This dictionary aims to rectify some of those misconceptions by proving that Latinos do fundamentally express American issues, concerns, and perspectives with a flair in linguistic cadences, familial themes, distinct world views, and cross cultural voices. The Historical Dictionary of U S Latino Literature contains a chronology, an introduction, and an extensive bibliography. The dictionary section has cross referenced entries on U S Latino authors and terms relevant to the nature of U S Latino literature in order to illustrate and corroborate its foundational bearings within the overall American literary experience. This book is an excellent access point for students, researchers, and anyone wanting to know more about this subject.

Border Confluences Rosemary A. King,2004-02-01 Writers focusing on the U S Mexico border are keen observers of cultural interaction and their work offers a key to understanding the region and its most important issues For more than 150 years novelists from both the United States and Mexico have spun stories about the borderlands in which characters react to cultural differences in the region and this has become a dominant theme in border fiction Authors such as Helen Hunt Jackson Carlos Fuentes Cormac McCarthy and Leslie Marmon Silko have not only created important literature in so doing

they have also helped define the border Writers who are drawn to the borderlands owe the narrative power of their work to compelling relationships between literary constructions of space and artistic expressions of cultural encounter Rosemary King now offers a new way of understanding the conflicts these writers portray by analyzing their representations of geography and genre *Border Confluences* examines how the theme of cultural difference influences the ways that writers construct narrative space and the ways their characters negotiate those spaces from domestic sphere to national territory public school to utopia King shows how fictional characters various responses to cultural encounters adapting resisting challenging sympathizing depend on the artistic rendering of spaces and places around them and she examines the connection between writers evocation of place and the presence of cultural interaction along the border as expressed in novels written since the mid nineteenth century Drawing on historical romances Hispanic coming of age novels travel narratives and utopian literature King offers plot summaries of such key works as *Ramona* *All the Pretty Horses* and *Almanac of the Dead* as she analyzes representations of both the spaces in which characters function and the places they inhabit relative to the border *Border Confluences* is a provocative study that offers insight into the ways words and space combine and recombine over time to create representations of the borderlands as a site where places and cultures continue to generate powerful narrative Through it scholars and students in such disciplines as ethnic studies sociology and women s studies will find that novels centered on the border are not merely works of literature but also keys to understanding the region and its most important issues
