to work in interprofessional teams *Children and Their Families* Vicky R. Bowden, Cindy Smith Greenberg, 2010 *Children and Their Families The Continuum of Care* provides a unique interdisciplinary perspective that underscores the nurse's role in planning, coordinating and working with all members of a pediatric health care team. It shows students how to make critical judgments and assessments to manage the care of children in a variety of community settings including homes, schools and medical centers. From infancy through adolescence, this text thoroughly covers the health promotion, surveillance and maintenance needs of children. In this edition, threaded case studies follow a community of pediatric clients and continue throughout the chapter to show the interrelated dynamics of pediatric nursing care. A companion Website includes journal articles, NCLEX style chapter review questions, a Spanish/English audio glossary, Watch and Learn videos, a fluids and electrolytes tutorial and much more.

Principles of Pharmacology for Athletic Trainers Joel Houghlum, Gary Harrelson, Teresa Seefeldt, 2024-06-01 *Principles of Pharmacology for Athletic Trainers Third Edition* continues the tradition of past editions to provide applications of pharmacological principles specifically aimed at the athletic trainer. The drug categories that are included are primarily those that may be pertinent to the treatment of athletic injuries or that may affect athletic performance. Drs. Joel Houghlum, Gary Harrelson and Teresa Seefeldt have taken a unique aspect to the organization and design of the Third Edition to be instructional discussions regarding the use and effects of drugs and of the disease states treated by these drug categories. Additionally, there is a specific discussion of the role of the athletic trainer regarding the therapeutic use and effects of these drugs.

Features of the Third Edition: Satisfies all of the CAATE Educational Competencies on pharmacology; Advanced organizers and specific learning objectives at the beginning of each chapter; Summaries after each major topic within the chapter; Case studies and clinical applications; Discussion on popular fitness supplements; Key words are in italics and defined in the glossary; Concept maps present important yet complex processes in a concise graphical way; Shaded textboxes throughout include additional information and are beneficial for the reader to recall a key concept addressed in an earlier chapter; New ancillary materials specifically for faculty that include PowerPoint slides and test bank questions for each chapter. Included with the text are online supplemental materials for faculty use in the classroom.

Principles of Pharmacology for Athletic Trainers Third Edition will continue to be the go-to resource to determine the best pharmacological treatment strategy and management by athletic trainers.
