Bibliographic Guide to Latin American Studies ,1988 **Votes for Survival** Simeon Nichter,2018-11-15 Across the world many politicians deliver benefits to citizens in direct exchange for their votes Scholars often predict the demise of this phenomenon as it is threatened by economic development ballot secrecy and other daunting challenges To explain its resilience this book shifts attention to the demand side of exchanges Nichter contends that citizens play a crucial but underappreciated role in the survival of relational clientelism ongoing exchange relationships that extend beyond election campaigns Citizens often undertake key actions including declared support and requesting benefits to sustain these relationships As most of the world s population remains vulnerable to adverse shocks citizens often depend on such relationships when the state fails to provide an adequate social safety net Nichter demonstrates the critical role of citizens with fieldwork and original surveys in Brazil as well as with comparative evidence from Argentina Mexico and other continents Seismic Behaviour of Ground and Geotechnical Structures: Special Volume of TC 4 Pedro S. Bibliotheca Britannica: Subjects Robert Watt, 1824 *Serviani in Vergili Aeneidos libros IX-XII commentarii*

Completed and Prepared for Publication by Robert A. Kaster, 2018-03-29 The Servian commentaries on Vergil are doubly distinguished they are among the very few ancient commentaries on classical Latin texts to survive essentially intact and they exist in two radically different forms the original commentary created by the grammarian Servius early in the fifth century emphasizing grammar and syntax and an augmented version produced in the seventh century when a reader blended his Servius with much other research ancient lore In the 1920s the medievalist Edward Kennard Rand undertook to produce a truly modern edition that would fully reveal for the first time the character of the commentaries two versions All did not go smoothly however a volume devoted to Aeneid 1-2 appeared in 1946 and another with the commentaries on Aeneid 3-5 in 1965 this edition of the commentaries on Aeneid 9-12 is the first new contribution to the series to appear in more than fifty years On his death in 2013 Charles E. Murgia left publishable versions of the text upper and lower critical apparatuses and large parts of the introduction and he had gathered most of the data for a testimonial apparatus Robert A. Kaster completed the work on the testimonia and introduction using some of Murgia's other writings to supplement the latter added some subsidiary elements and prepared the whole for publication Thanks primarily to Murgia's work this edition is superior to its predecessors in the series and to all other editions of Servius in every respect
