Western Aviation, Missiles, and Space ,1941 Water and Security in Central Asia Virpi Stucki,Kai Wegerich,Muhammad Mizanur Rahaman,Olli Varis,2016-04-08 Examining the water development and security linkages in Central Asia can feel a bit like solving a Rubik s cube The Rubik s cube starts to usually find structure and the different pieces find their places when its solver adopts a systematic approach Still solving the whole cube takes time and perseverance This is also the case with water and security in Central Asia as demonstrated by the chapters in this book In the case of water and security in Central Asia there are many faces including not only the Central Asian states but also the neighbouring countries and other players of global geopolitics stickers such as policies practices causes and impacts and colours such as the different stakeholders ranging from the micro and meso levels to the macro level Understanding all these or getting clarity on the nexus can seem extremely challenging Even though none of the chapters alone answers the question of what constitutes water and security in Central Asia each of them gives thoughtful ideas and information on the complexity of the issue This book was published as a special issue of the International Journal of Water Resources Development **RBI**
