This collection showcases the high quality work of internationally recognized researchers in the early stages of their independent careers. All Rising Star researchers were individually nominated by the Chief Editors of the Journal in recognition of their potential to influence the future directions in their respective fields. The work presented here highlights the diversity of research performed across the entire breadth of cardiovascular medicine including the elucidation of fundamental biology, the development of novel diagnostics or therapeutics, computational modelling approaches and bioengineering strategies for regeneration.

Dataproof Your School Richard Selfridge, James Pembroke, 2022-01-12 Collecting and analysing data to monitor and challenge school standards is an increasingly important and unavoidable aspect of our education system. But how do we ensure we are generating useful information to support learning and make informed decisions and not needlessly ramping up workload? This book will guide you through the different types of data schools can and should generate, how to make the best use of it and what to avoid. From standardised tests and teacher assessment to managing data and developing a data strategy, this book will equip you with the tools you need to dataproof your school. Richard Selfridge is a primary school teacher, data consultant and writer on education. James Pembroke is a data analyst, blogger and consultant with 15 years' experience working with education data. He now works for Insight Tracking. *Ski*, 1993-01 *Experimental IR Meets Multilinguality, Multimodality, and Interaction* Fabio Crestani, Martin Braschler, Jacques Savoy, Andreas Rauber, Henning Müller, David E.
