### Insect Defenses 4

Insects use many strategies to keep themselves safe from predators. Some have wings that enable them to fly away when they feel threatened. Some insects like bees, sting any animal that gets too close.

### Life of a Cicada 16

Cicadas can live up to 17 years. Once a cicada is an adult, it stays in the ground for 17 years. They come out of the ground and live for a short time. They are very hard to see because they are underground for so long.

### Warning Colors 18

Yellow, black, and red are warning colors. These colors tell predators to stay far away. Many insects have these colors to keep from getting hurt.

### Early Travel 11

Years before the airplane was invented, traveling from one place to another was difficult and slow. Horses were used for traveling short distances. Even then, it took several hours just for a horse to travel a few miles. The airplane was even faster. People and objects could be transported all over the world in a short time.

### Insect Defenses 4

Insects use many strategies to keep themselves safe from predators. Some have wings that enable them to fly away when they feel threatened. Some insects like bees, sting any animal that gets too close.

- Why did the author include information about bees?
- a. to provide an example about animal defenses
  - b. to explain the defense that all insects have
