**Textbook Distortion** Mark Hodges,2014-10-29 Ten chapters of examples of historical revision with an atheist bias and sixteen more examples of direct attacks on a theistic worldview or Christianity found in college textbooks plus a short list basic defense of the Scriptures and a look at some common myths used to support the atheist world view A compilation of Textbook Propaganda and Textbook Folly with material from the Ten Myths of Modern Academia series Textbook Folly Mark Hodges,2017-12-03 Author explores his college textbooks and examines them for honesty or bias education or indoctrination Aware of the movement in Russia and China to remove all theism out of the school system and replace it with the teachings of atheism and Darwinism and what they called propaganda he examines American textbooks to see if some of the same biases can be found in our textbooks Are our colleges teaching from an innocuous and neutral ideology Or is there a bias Are we being indoctrinated or educated and does anybody care In book one the author deals with two different books one a second year logic text and the other a first year philosophy book More to come *The Pretribulation Rapture Theory and Dispensationalism Revisited* J. Mike Byrd,2014-08-15 The Pretribulation Rapture Theory and Dispensationalism Revisited reviews and critiques a confusing array of popular theories that address the return of Jesus Christ and the churchs rapture It proposes that a clarifying approach rests in letting Scripture interpret Scripture which yields a simpler more natural and consistent explanation of the pretribulation rapture and dispensationalism Drawing upon thousands of hours of Bible study J Mike Byrd presents an analysis and a related proposal that avoid both unthinking conformity to popular notions and oversimplification for the sake of palatability The Pretribulation Rapture Theory and Dispensationalism Revisited addresses methods of interpretation defines dispensationalism and the Dispensational Principle examines the scriptural testimony surrounding the day of the Lord and the day of Gods wrath surveys the issues regarding imminence and discusses the rapture the resurrection and Christs second coming If you wonder what Scripture clearly teaches about the this worlds demise the end of human existence and the onset of Gods sure and certain work to establish his reign then The Pretribulation Rapture Theory and Dispensationalism Revisited should offer you the scripturally grounded review analysis and explanation you need to understand the Scriptures teachings on these ultimate issues **Logic and Contemporary Rhetoric** Howard Kahane,1992 Aims to challenge students to think for themselves by providing coverage of some common fallacies used in advertising the mass media textbooks by public officials and in everyday conversation This book should be of interest to students of critical thinking and informal logic courses Battleground States Michael Mooradian Lupro,Stephen Swanson,2009-10-02 Stemming from an interdisciplinary conference sponsored by Culture Club The Cultural Studies Scholars Association that included scholars from various disciplines and from around the world this volume collects the work of graduate students and junior faculty which all examine the meaning of cultural scholarship in an ever changing and increasingly global milieu These voices which often become marginalized and go unheard represent what we see as the

futures of interdisciplinary academic work in the humanities The conference and this book are opportunities for scholars of diverse backgrounds and disciplines to come together and engage in a real dialogue with one another Bringing disparate thoughts on politics film television history policy and literature together counters the pressures pushing individuals to take political religious scholarly and ideological sides Through the efforts represented here we gain a distanced yet engaged view on the many threads that bind us together and the forces that seek to separate us Looking at this volume the reader encounters many different approaches from critical analysis of individual texts to autoethnography The contributors and compilers of this book do not place these in separate sections or in any hierarchy but rather wish that all of these appear on an equally vital level that displays the ways in which each of the subjects and approaches might open up a piece of culture in a way that draws attention to the connections between them all [Resources in Education](#) ,1992 Serves as an index to Eric

Zaugg,2011-09 The most important subject you should study isn t found in school but inside this book There is a growing percentage of Americans who think the country is on the wrong path This raises two questions Firstly what path are we taking that is leading us to social and financial disasters And even more importantly what path should we be taking Our history shows that occasionally we will face emergencies like the recent financial crisis Our response is to spend money to bail out the sinking ship But shouldn t we also fix the hole in the bottom of the ship once and for all Politicians on either side are out of touch and leading us down a dead end path Are oppressive taxes

deficit spending and massive bureaucracy the legacy we want to leave our children and grand children The nation whose respect for freedom was the ideal of the modern world is now seeing that freedom eroded day by day But this tragedy does not have to be We can change course and reclaim what our founding fathers left us History will indeed record the choice we make Why not be the best we could be Author John H Zaugg is a lifelong student of the true American ideals and values and a supporter of personal liberty for all He lives in Denver Colorado <http://SBPRA.com> JohnHZaug
