The Myth of the 'Crime Decline' Justin Kotzé,2019-03-20 The Myth of the Crime Decline seeks to critically interrogate the supposed statistical decline of crime rates thought to have occurred in a number of predominantly Western countries over the past two decades Whilst this trend of declining crime rates seems profound serious questions need to be asked Data sources need to be critically interrogated and context needs to be provided This book seeks to do just that This book examines the wider socio economic and politico cultural context within which this decline in crime is said to have occurred highlighting the changing nature and landscape of crime and its ever deepening resistance to precise measurement By drawing upon original qualitative research and cutting edge criminological theory this book offers an alternative view of the

reality of crime and harm In doing so it seeks to reframe the crime decline discourse and provide a more accurate account of this puzzling contemporary phenomenon Additionally utilising a new theoretical framework developed by the author this book begins to explain why the crime decline discourse has been so readily accepted Written in an accessible yet theoretical and informed manner this book is a must read for academics and students in the fields of criminology sociology social policy and the philosophy of social sciences

The Death Penalty's Denial of Fundamental Human Rights John Bessler, 2022-12-15 The Death Penalty's Denial of Fundamental Human Rights details how capital punishment violates universal human rights to life to be free from torture and other forms of cruelty to be treated in a non arbitrary non discriminatory manner and to dignity In tracing the evolution of the world's understanding of torture which now absolutely prohibits physical and psychological torture the book argues that an immutable characteristic of capital punishment already outlawed in many countries and American states is that it makes use of death threats Mock executions and other credible death threats in fact have long been treated as torturous acts When crime victims are threatened with death and are helpless to prevent their deaths for example courts routinely find such threats inflict psychological torture With simulated executions and non lethal corporal punishments already prohibited as torturous acts death sentences and real executions the book contends must be classified as torturous acts too
