The concept of User Interfaces for All targets a proactive realization of the signforall principle in the field of human computer interaction HCI and involves the development of user interfaces to interactive applications and e-services which provide universal access and usability to potentially all users. In the tradition of its predecessors the 8th ERCIM Workshop User Interfaces for All aimed to consolidate recent work and to stimulate further discussion on the state of the art in User Interfaces for All and its increasing range of applications in the upcoming Information Society. The emphasis of the 2004 event was on User Centered Interaction Paradigms for Universal

Access in the Information Society The requirement for user centered universal access stems from the growing impact of the fusion of the emerging technologies and from the different dimensions of diversity that are intrinsic to the Information Society These dimensions become evident when considering the broad range of user characteristics the changing nature of human activities the variety of contexts of use the increasing availability and diversification of information knowledge sources and services the proliferation of technological platforms etc
