*New Era Accounting* Diane Woodroffe, 2012      **Study and Master Accounting Grade 11 Teacher's Guide** Elsabe Conradie, Derek Kirsch, Mandy Moyce, 2006-11-01 Study Master Accounting was developed with the help of practising teachers and covers all the requirements of the National Curriculum Statement for accounting      **Resources in Education**, 1997      *A practical materials development guide for EFL PRE-SERVICE, novice, and in-service teachers* Astrid Núñez Pardo, María Fernanda Téllez Téllez, Judith Castellanos Jaimes, Bertha Ramos Holguín, 2009-10-01 La presente publicación expone los resultados de la más reciente investigación sobre los call center o contact center en Colombia. Se trata de empresas contratistas cuya actividad está orientada a la atención telefónica de la clientela de empresas contratantes de sus servicios. Dichas empresas buscan este servicio con la finalidad de acercar y fidelizar su propia clientela, promocionar sus productos y servicios optimizando sus transacciones con el mercado, así como prestar atención y solución a las consultas o reclamos de sus propios clientes. Los call center pertenecen al grupo líder de las innovaciones de la era de la globalización hechas posibles por la revolución tecnológica ocurrida en el manejo de la información y las comunicaciones informática y telemática que lleva a que la sociedad y la economía funcionaran a escala mundial como una unidad en tiempo real. Revolución que permite la relocalización de las actividades económicas una de cuyas manifestaciones es el hecho de que las empresas puedan entrar en contacto con sus clientes actuales y potenciales en tiempo real en todo momento y en todos los lugares del mundo por medio de los call center. Gracias a esta evolución en Colombia la industria de los call center ha logrado mantener en los últimos años un crecimiento promedio del 27% anual con más de 200 000 personas empleadas lo que la convierte en el segundo país más competitivo en esta actividad en América Latina. De ahí el interés por realizar el estudio cuyos resultados publica este libro. La investigación está orientada y por una parte a establecer y a analizar la actividad económica de los call center y sus relaciones con las empresas que contratan sus servicios, así como los efectos que esta forma de tercerización tiene sobre la productividad y competitividad de las empresas. Los actores principales desde este punto de vista son las empresas que contratan los servicios de los call center a las cuales se llama empresas contratantes y los call center contratados por las primeras a los que se nombra empresas contratistas. Por otra parte se busca caracterizar la forma de gestión empresarial y las relaciones sociolaborales junto con las condiciones de trabajo vigentes en este tipo de empresas, así como las políticas de productividad, calidad y gestión del personal y los mecanismos que utilizan las empresas contratantes para lograr la fidelización de sus clientes y desarrollar sentido de pertenencia en los trabajadores operarios de los call center      **Best Practices in Mentoring for Teacher and Leader Development** Linda J.
