Subcommittee on Financial Institutions and Consumer Affairs,1986 **Computerworld** ,1989-09-25 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network Credit Reporting Systems and the International Economy Margaret J. Miller,2003 The first comprehensive review of credit reporting systems worldwide including their institutional forms and evidence of their impact on financial markets Credit reporting is a critical part of the financial system in most developed economies but is often weak or absent in developing countries It addresses a fundamental problem of credit markets asymmetric information between borrowers and lenders that can lead to adverse selection and moral hazard The heart of a credit report is the record it provides of an individual s or a firm s payment history which enables lenders to evaluate credit risk more accurately and lower loan processing time and costs Credit reports also strengthen borrower discipline since nonpayment with one

institution results in sanctions with others This book provides the first comprehensive review of credit reporting systems worldwide and documents the rapid growth in the industry It offers empirical and theoretical evidence of the impact of credit reporting on financial markets using examples from both developed and developing economies Credit reporting it shows significantly contributes to predicting default risk of potential borrowers which promotes increased lending activity The book also covers the role of public policy in the development of credit reporting initiatives including the role of public credit registries managed by central banks and the role of legal regulatory and institutional factors in supporting credit reporting
