

Euthanasia

What is euthanasia? Euthanasia is the act of killing patients who are suffering from an incurable disease to end their suffering. That is why it is also called mercy killing. The word euthanasia comes from the Greek words "eu" meaning good and "thanatos" meaning death, so the meaning of the word euthanasia is good death and putting an end to someone's suffering.

Euthanasia is illegal in most of the countries because, in public, mercy killing can also be considered murder. I disagree with euthanasia in mercy killing because this is basically killing someone intentionally. It may be a patient who is hopeless and suffering because of the pain of an incurable disease, but this doesn't change the fact that the person is alive, and euthanasia will end a person's life. To others, euthanasia is good because it will save the person from feeling more pain, but the doctors should heal and remove the pain of the patients, not tell them just to end their suffering. We must not legalize euthanasia in person's illness and remove it. This may lead to killing someone's life as an excuse to end their suffering because they have a disease. This will lead to abuse and violate the human rights of others who will become victims of euthanasia.

In conclusion, euthanasia may be good for some people who want to end their suffering with the use of euthanasia, but we must see that many people will be killed for no reason because of euthanasia if it is legalized by countries in the world. I disagree with euthanasia because I think there are some people who will be in pain if this is legalized that a few other want to end their suffering. We must protect our human rights, so we must not use euthanasia and legalize it.
