For decades we've been warned that video killed the radio star, and more recently that social media has replaced reading. Nerdfighteria, a first of its kind online literary community with nearly three million members, challenges these assumptions. It is the brainchild of brothers Hank and John Green, who provide literary-themed programming on their website and YouTube channel, including video clips from John, a best-selling author most famous for his young adult book *The Fault in Our Stars*. These clips not only give fans personal insights into his works and the writing process, but they also provide unique access to the author, inspiring fans to create their own fan art and make connections with one another. In the twenty-first century, reading and watching videos are related activities that allow people to engage with authors and other readers. Whether they turn to *The Fault in Our Stars* or titles by lesser-known authors, Nerdfighters are readers. Incorporating thousands of testimonials about what they read and why, Jennifer Burek Pierce not only sheds light on this particular online community, she also reveals what it tells us about the changing nature of reading in the digital age. In Nerdfighteria, we find a community who shows us that being online doesn't mean disinterest in books. **South Carolina Government** Charlie B. Tyer, 2002. *South Carolina Government: An Introduction* offers a compelling and comprehensive overview of the responsibilities and powers of government at the local, municipal, county, and state levels in South Carolina. Cases determined in the Supreme Court of Ontario, Appellate and High Court Divisions, varies. Morals and the Media, 2nd edition, Nicholas Russell, 2011-11-01. Confronted daily with decisions on how to present their stories, what to write, and what not to write, journalists and the media are frequently accused of sensationalizing, of choosing to report the bad news, and of misquoting those they interview. In this substantially updated edition of *Morals and the Media*, Nick Russell addresses many of the concerns the public has about the media as he examines why the media behave the way they do. He also discusses how values

have been developed and applied and suggests value systems that can be used to judge special situations This revised edition covers the many changes in the Canadian media in the last decade including further concentration of media ownership media convergence online journalism the rise of the web log and the tightening economic pressures on the industry as a whole While much of the debate in this field has focused on conditions in the United States Russell points out that the ethical issues that arise in Canada are often substantially different from those in the US He has also added new Tough Calls at the end of each chapter inviting readers to test their own ethics in scenarios drawn from real news stories *Morals and the Media* will be essential reading in journalism courses as well as an important resource for journalists It will also be of interest to the consumers of journalism the readers listeners and watchers who wonder why the media do what they do **Americomania and the French Revolution Debate in Britain, 1789-1802** Wil Verhoeven, 2013-11-12 This book explores the evolution of British identity and participatory politics in the 1790s Wil Verhoeven argues that in the course of the French Revolution debate in Britain the idea of America came to represent for the British people the choice between two diametrically opposed models of social justice and political participation Yet the American Revolution controversy in the 1790s was by no means an isolated phenomenon The controversy began with the American crisis debate of the 1760s and 1770s which overlapped with a wider Enlightenment debate about transatlantic utopianism All of these debates were based in the material world on the availability of vast quantities of cheap American land Verhoeven investigates the relation that existed throughout the eighteenth century between American soil and the discourse of transatlantic utopianism between America as a physical geographical space and America as a utopian dystopian idea image *Getting the Meaning 5' 2000 Ed. ,* **Urbanism and Urbanization** Noel Iverson, 2022-10-24 **Everything Was Better in America** David Welky, 2010-10-01 As a counterpart to research on the 1930s that has focused on liberal and radical writers calling for social revolution David Welky offers this eloquent study of how mainstream print culture shaped and disseminated a message affirming conservative middle class values and assuring its readers that holding to these values would get them through hard times Through analysis of the era's most popular newspaper stories magazines and books Welky examines how voices both outside and within the media debated the purposes of literature and the meaning of cultural literacy in a mass democracy He presents lively discussions of such topics as the newspaper treatment of the Lindbergh kidnapping issues of race in coverage of the 1936 Olympic games domestic dynamics and gender politics in cartoons and magazines Superman's evolution from a radical outsider to a spokesman for the people and the popular consumption of such novels as the Ellery Queen mysteries *Gone with the Wind* and *The Good Earth* Through these close readings Welky uncovers the subtle relationship between the messages that mainstream media strategically crafted and those that their target audience wished to hear *Urban Renaissance?* Imrie, Rob, Raco, Mike, 2003-05-21 This book documents and assesses the core of New Labour's approach to the revitalisation of cities that is the revival of citizenship democratic renewal and the participation of communities to spear head urban change In doing so
