Effectiveness of teachers' guides in the Global South Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10 This report presents the results of RTI International Education s study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh s first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace s reinvigorated school

Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

Applied Practice for Educators of Gifted and Able Learners Hava E. Vidergor, Carole Ruth Harris, 2015-07-21 This book is a comprehensive study and guide for the classroom teacher the gifted program coordinator and the graduate student who are challenged daily to provide for individual children who differ markedly but come under the umbrella of giftedness It serves as a wellspring that derives from theory while it offers practical application of theoretical construct in a wide variety of international settings from leaders in the field who demonstrate implementation of proven and field tested techniques and alternative scenarios to accommodate every classroom situation Contributors are internationally recognized experts who have come together to provide a sound reliable source for teachers of the gifted that will be utilized time and time again by practitioners and researchers alike Among internationally renowned scholars are Joyce Van Tassel Baska Susan Johnsen June Maker Belle Wallace Linda Kreger Silverman Dorothy Sisk Gillian Eriksson Miraca Gross Gilbert Clark Enid Zimmerman and Rachel McAnallen Hava E Vidergor Ph D is lecturer of innovative pedagogy and curriculum design at Gordon Academic College and Arab Academic College of Education and holds a Ph D in Learning Instruction and Teacher Education with specialization in Gifted Education from the University of Haifa Israel Carole Ruth Harris Ed D formerly Director of G A T E S Research Evaluation is a consultant in education of the gifted in Central Florida who holds the doctorate from Columbia University where she studied with A Harry Passow and A J Tannenbaum She has served as Associate in International Education at Harvard University Research Associate at Teachers College Columbia University lecturer at University of Massachusetts Lowell and University of Hawaii Principal Investigator at Research Corporation of the University of Hawaii and Director of the Center for the Gifted in Ebeye Marshall Islands

Elgin Dairy Report, 1921

NATO's Return to Europe Rebecca R. Moore, Damon Coletta, 2017-09-11 NATO's 2010 Strategic Concept officially broadened the alliance's mission beyond collective defense reflecting a peaceful Europe and changes in alliance activities NATO had become an international security facilitator a crisis manager even outside Europe and a liberal democratic club as much as a mutual defense organization However Russia's re entry into great power politics has changed NATO's strategic calculus Russia's aggressive annexation of Crimea in 2014 and its ongoing military support for Ukrainian separatists dramatically altered the strategic environment and called into question the liberal European security order States bordering Russia many of which are now NATO members are worried and the alliance is divided over assessments of Russia's behavior Against the backdrop of Russia's new assertiveness an international group of scholars examines a broad range of

issues in the interest of not only explaining recent alliance developments but also making recommendations about critical choices confronting the NATO allies While a renewed emphasis on collective defense is clearly a priority this volume s contributors caution against an overcorrection which would leave the alliance too inwardly focused play into Russia s hand and exacerbate regional fault lines always just below the surface at NATO This volume places rapid fire events in theoretical perspective and will be useful to foreign policy students scholars and practitioners alike **Just Like Me, Climbing a Tree**

Durga Yael Bernhard,2015-04-22 Join us on a trip around the world climbing the different trees we find along the way How would it feel to be up in a GINGKO tree in CHINA Could you climb a CYPRESS tree in MEXICO What would you find in a baobab tree in AFRICA Large and small common and incredible trees are a never ending source of wonder No matter what continent you live on there is a grand adventure waiting for you right in your own neighborhood Includes fascinating information about all the trees featured in the book *Annual Report* India. Ministry of Finance,2014 **Dark Data** David J. Hand,2022-02-15 Data describe and represent the world However no matter how big they may be data sets don t indeed cannot capture everything Data are measurements and as such they represent only what has been measured They don t necessarily capture all the information that is relevant to the questions we may want to ask If we do not take into account what may be missing unknown in the data we have we may find ourselves unwittingly asking questions that our data cannot actually address come to mistaken conclusions and make disastrous decisions In this book David Hand looks at the ubiquitous phenomenon of missing data He calls this dark data making a comparison to dark matter i e matter in the universe that we know is there but which is invisible to direct measurement He reveals how we can detect when data is missing the types of settings in which missing data are likely to be found and what to do about it It can arise for many reasons which themselves may not be obvious for example asymmetric information in wars time delays in financial trading dropouts in clinical trials deliberate selection to enhance apparent performance in hospitals policing and schools etc What becomes clear is that measuring and collecting more and more data big data will not necessarily lead us to better understanding or to better decisions We need to be vigilant to what is missing or unknown in our data so that we can try to control for it How do we do that We can be alert to the causes of dark data design better data collection strategies that sidestep some of these causes and we can ask better questions of our data which will lead us to deeper insights and better decisions Performance Costume Sofia Pantouvaki,Peter McNeil,2020-12-10 Costume is an active agent for performance making it is a material object that embodies ideas shaped through collaborative creative work A new focus in recent years on research in the area of costume has connected this practice in vital and new ways with theories of the body and embodiment design practices artistic and other forms of collaboration Costume like fashion and dress is now viewed as an area of dynamic social significance and not simply as passive reflector of a pre conceived social state or practice This book offers new approaches to the study of costume as well as fresh insights into the better understood frames of historical theoretical

practice based and archival research into costume for performance This anthology draws on the experience of a global group of established researchers as well as emerging voices Below is a list of just some of the things it achieves 1 Introduces diverse perspectives innovative new research methods and approaches for researching design and the costumed body in performance 2 Contributes towards a new understanding of how costume actually performs in time and space 3 Offers new insights into existing practices as well as creating a space of connection between practitioners and researchers from design the humanities and social sciences

Balloon and Stent for Ischemic and Hemorrhagic Stroke: A New Trend for Stroke Prevention and Management

Firas Al-Ali, 2015-11-09 In recent years intracranial endovascular use of Balloon and Stent has grown significantly This issue will focus primarily on recent advances in the use of these methods today This discussion will also highlight our improvements in understanding the disease process and not only relying on devices to treat a patient Wide necked intracranial aneurysms IA were originally thought to be either untreatable or at the very least significantly challenging to treat by endovascular means due to the risk of coil protrusion and possibly parent vessel occlusion However this view now outdated today and we will discuss the significant advancement in different flow diverters The treatment of post sub arachnoid hemorrhage vasospasm is mature now as this issue will highlight In addition Intracranial atherosclerosis is still a prominent cause of stroke in various populations worldwide This issue will summarize the challenges of risk factor modification and secondary stroke prevention by defining optimal methods We will try to outline a new approach for intracranial angioplasty and stenting for stroke prevention Finally despite recent impressive increase recanalization rates in acute ischemic stroke treatment the clinical improvement rate has remained relatively stable This article will discuss a new means of improving patient selections using the capillary index score CIS The future of our specialty relies heavily on better devices and on a deeper understanding of the disease process The future is bright and we have already taken the first successful steps

Birkbeck Joanna Bourke, 2022 In 2023 Birkbeck University of London celebrates 200 years of educating working people in central London It was founded in 1923 as the London Mechanics Institution and from its inception was a pioneering and radical institution This history is animated by the conviction that Birkbeck is its people Their thoughts and ambitions hopes and dreams labour and laughter are what this book describes celebrates and occasionally laments It explores the history of education as well as the history of place politics radicalism class race gender disciplinarity theatre food leisure war and everyday encounters Most of all this book is about ideas What does it mean to be educated How have these meanings changed over time What makes Birkbeck students unique What does it mean to be fully human exploiting our faculties in order to become better people

Daily Graphic

Ransford Tetteh, 2014-09-19 TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2015/16, 2016-03-15 TERI Energy Environment Data Diary and Yearbook TEDDY is an annual publication brought out by The Energy and Resources Institute TERI since 1986 It is the only comprehensive energy and environment yearbook in India which provides updated information

on the energy supply sectors coal and lignite petroleum and natural gas power and renewable energy sources energy demand sectors agriculture industry transport residential and commercial sectors and environment local and global The publication also provides a review of the government policies that have implications for these sectors of the Indian economy Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time These energy balances and conversion factors are a valuable ready reckoner for researchers scholars and organizations working on energy and related sectors After the introductory chapters for the ease of readers TEDDY has been divided into sections on energy supply energy demand and local and global environment The thirtieth edition of the publication TEDDY 2015-16 comes with several interesting features The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices which are of current interest in the sectors discussed under the sections on energy supply energy demand and local and global environment The publication also features a section that discusses sustainable development goals and air pollution and health Interactive graphs figures maps and tables have been used throughout the chapters to explain facts which make the book an interesting read In addition detailed tables at the end of each chapter represent statistical data on each of the above mentioned sectors The publication is accompanied by a complimentary CD containing full text The publication has more than 15 000 readers across the globe and is often cited in international peer reviewed journals and policy documents

Key Features

- Exhaustive compilation of data from energy supply and demand sectors
- Recent data along with data for the past years presented in the form of structured and easy to understand tables
- Recent advances made in the energy sectors are covered in the book
- Self explanatory figures and graphs showing the latest trends in various sectors are also part of chapters
- The Green focus section in every chapter highlights a topical issue
- The book comes with a complimentary CD that contains all the chapters and additional tables

Contents

- Energy and environment an overview
- Commercial energy balance tables and conversion factors
- Energy supply Coal and lignite Petroleum and natural gas Power Renewable energy sources and technologies
- Energy demand Agriculture Industry Transport Household energy Local and global environment
- Environment Climate change Energy and environment goals Sustainable development goals and implications for India Air pollution and health

Handbook of Research on the Societal Impact of Digital Media Guzzetti, Barbara, Lesley, Mellinee, 2015-08-27 The evolution of digital media has enhanced global perspectives in all facets of communication greatly increasing the range scope and accessibility of shared information Due to the tremendously broad reaching influence of digital media its impact on learning behavior and social interaction has become a widely discussed topic of study synthesizing the research of academic scholars community educators and developers of civic programs The Handbook of Research on the Societal Impact of Digital Media is an authoritative reference source for recent developments in the dynamic field of digital media This timely publication provides an overview of technological developments in digital media and their myriad

applications to literacy education and social settings With its extensive coverage of issues related to digital media use this handbook is an essential aid for students instructors school administrators and education policymakers who hope to increase and optimize classroom incorporation of digital media This innovative publication features current empirical studies and theoretical frameworks addressing a variety of topics including chapters on instant messaging podcasts video sharing cell phone and tablet applications e discussion lists e zines e books e textiles virtual worlds social networking cyberbullying and the ethical issues associated with these new technologies

River Flow 2016 George Constantinescu, Marcelo Garcia, Dan Hanes, 2016-06-22 Understanding and being able to predict fluvial processes is one of the biggest challenges for hydraulics and environmental engineers hydrologists and other scientists interested in preserving and restoring the diverse functions of rivers The interactions among flow turbulence vegetation macroinvertebrates and other organisms as well as the transport and retention of particulate matter have important consequences on the ecological health of rivers Managing rivers in an ecologically friendly way is a major component of sustainable engineering design maintenance and restoration of ecological habitats To address these challenges a major focus of River Flow 2016 was to highlight the latest advances in experimental computational and theoretical approaches that can be used to deepen our understanding and capacity to predict flow and the associated fluid driven ecological processes anthropogenic influences sediment transport and morphodynamic processes River Flow 2016 was organized under the auspices of the Committee for Fluvial Hydraulics of the International Association for Hydro Environment Engineering and Research IAHR Since its first edition in 2002 the River Flow conference series has become the main international event focusing on river hydrodynamics sediment transport river engineering and restoration Some of the highlights of the 8th International Conference on Fluvial Hydraulics were to focus on inter disciplinary research involving among others ecological and biological aspects relevant to river flows and processes and to emphasize broader themes dealing with river sustainability River Flow 2016 contains the contributions presented during the regular sessions covering the main conference themes and the special sessions focusing on specific hot topics of river flow research and will be of interest to academics interested in hydraulics hydrology and environmental engineering [Professional Journal of the United States Army](#) ,2009-11

Fundamentals of 5G Mobile Networks Jonathan Rodriguez, 2015-04-27 Fundamentals of 5G Mobile Networks provides an overview of the key features of the 5th Generation 5G mobile networks discussing the motivation for 5G and the main challenges in developing this new technology This book provides an insight into the key areas of research that will define this new system technology paving the path towards future research and development The book is multi disciplinary in nature and aims to cover a whole host of intertwined subjects that will predominantly influence the 5G landscape including the future Internet cloud computing small cells and self organizing networks SONs cooperative communications dynamic spectrum management and cognitive radio Broadcast Broadband convergence 5G security challenge and green RF This book aims to be the first of its kind towards painting a holistic perspective on 5G Mobile

allowing 5G stakeholders to capture key technology trends on different layering domains and to identify potential inter disciplinary design aspects that need to be solved in order to deliver a 5G Mobile system that operates seamlessly

New Concepts and Discoveries William M. Pennell ,Larry J. Garside,2015-06-12 Scientific analyses of the geology metallogeny and mineralization of gold silver and other high value elements in the western USA Technical details on working mines exploration results new deposits Presentations produced with the United States Geological Survey Society of Economic Geologists Two volume book set printed in full color with full text searchable CD ROM Produced under the auspices of the Geological Society of Nevada and published every five years this two volume book of peer reviewed papers focuses on the geological analysis of ore rich deposits in the western United States especially ones containing gold and other high value elements Hundreds of stratigraphic lithographic remote sensing and core sample examples are presented particularly of areas likely to host Carlin type gold deposits The two volumes contain a wealth of data on specifically named mines as well as technical information on high potential areas for exploration The book is profusely illustrated with full color maps photographs and charts for geology and mining engineering A searchable CD accompanies the book and includes the full text of papers from the printed book as well as abstracts and information from poster sessions not found in the printed book Chapters in the text are fully refereed versions of presentations originally delivered at a symposium supported by the Geological Society of Nevada along with the United States Geological Survey Society of Economic Geologists and the Nevada Bureau of Mines Sample key words metallogeny gold epithermal ore magmatism Carlin trend square array void mapping SAVM porphyry copper tungsten orogeny lithogeochemistry 3 D resistivity and modeling fault surface mapping airborne electromagnetics and more The CD ROM displays figures and illustrations in articles in full color along with a title screen and main menu screen Each user can link to all papers from the Table of Contents and Author Index and also link to papers and front matter by using the global bookmarks which allow navigation of the entire CD ROM from every article Search features on the CD ROM can be by full text including all key words article title author name and session title The CD ROM has Autorun feature for Windows 2000 or higher products and can also be used with Macintosh computers The CD includes the program for Adobe Acrobat Reader with Search 11 0 One year of technical support is included with your purchase of this product

The Price of Fixed Income Market Volatility Antonio Mele,Yoshiki Obayashi,2016-01-11 Fixed income volatility and equity volatility evolve heterogeneously over time co moving disproportionately during periods of global imbalances and each reacting to events of different nature While the methodology for options based model free pricing of equity volatility has been known for some time little is known about analogous methodologies for pricing various fixed income volatilities This book fills this gap and provides a unified evaluation framework of fixed income volatility while dealing with disparate markets such as interest rate swaps government bonds time deposits and credit It develops model free forward looking indexes of fixed income volatility that match different quoting conventions across various markets and uncovers

subtle yet important pitfalls arising from naive superimpositions of the standard equity volatility methodology when pricing various fixed income volatilities

Paper2 Grade 1november 2014 Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has be much more evident than ever. They have the capability to inspire, provoke, and ignite change.
