An Economic History of the United States Mark V. Siegler, 2017-09-02 This pioneering textbook takes a thematic approach to the subject resulting in a comprehensive understanding of historic economic issues in the United States Siegler takes a thematic approach and provides both the theoretical foundations and historical background needed to gain an in depth understanding of the subject Every chapter examines a specific topic and the chapters are linked to each other to provide an overall view The chronological approach is represented with a useful timeline as an appendix to show where the specific topics fit in the chronology Chapter topics include long run causes of economic growth economic history of income and wealth inequality slavery segregation and discrimination immigration and immigration policies and an economic history of recessions and depressions This book is ideally suited as a primary text for undergraduate courses in US economic history as well as suitable courses on history degree programmes

Like Nobody's Business Andrew C. Comrie, 2021-02-23 How do university finances really work From flagship public research universities to small private liberal arts colleges there are few aspects of these institutions associated with more confusion myths or lack of understanding than how they fund themselves and function in the business of higher education Using simple approachable explanations supported by clear illustrations this book takes the reader on an engaging and enlightening tour of how the money flows How does the university really pay for itself Why do tuition and fees rise so fast Why do universities lose money on research Do most donations go to athletics Grounded in hard data original analyses and the practical experience of a seasoned administrator this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university how it earns its money how it spends it and how it all works

Theory and Method in Higher Education Research Jeroen Huisman, Malcolm Tight, 2019-10-07 This volume of Theory and Method in Higher Education Research contains analyses and discussions of

amongst others disability frameworks rhythms research loose coupling mixed methods internet mediated research critical whiteness and selection bias *The Extractive Industries Sector* Håvard Halland, Martin Lokanc, Arvind Nair, 2015-09-02 The extractive industries EI sector occupies an outsize space in the economies of many developing countries Policy makers economists and public finance professionals working in such countries are frequently confronted with issues that require an in depth understanding of the sector its economics governance and policy challenges **Too-Big-to-Fail in Banking** Tom Filip Lesche, 2021-06-28 This book provides a comprehensive summary of the latest academic research on the important topic of too big to fail TBTF in banking It explains TBTF from various perspectives including the range of regulatory measures proposed to counter TBTF most notably the globally accepted regulation of global systemically important banks G SIBs and its main tool of capital surcharges The empirical analysis quantifies the shareholder value of the G SIB attribution by using quarterly observations from more than 750 global banks between Q2 2008 and Q3 2015 The main finding is that G SIBs are confronted with a substantial relative valuation discount compared to non G SIBs From the end of 2011 until the end of 2015 a stable discount of 0.6x to 0.8x price to tangible common equity P/TCE is statistically highly significant The results suggest that the G SIB designation effect which positively impacts G SIBs share prices because of funding benefits from IGGs is dominated by the regulatory G SIB burden effect which negatively impacts G SIBs share prices because of lower profitability due to capital surcharges and other regulatory requirements placed on G SIBs The findings re open the debate about whether breaking up G SIBs would unlock shareholder value and whether G SIBs are regulated efficiently **2015 Agricultural Productivity, Decentralisation, And Competitiveness Analysis For Provinces And Regions Of Indonesia** Khee Giap Tan, Nurina Merdikawati, Mulya Amri, Kong Yam Tan, 2016-11-22 This book is the only annual study that dissects Indonesia's sub national competitiveness at both the provincial level covering 34 provinces and the regional level covering six major island groups Based on a rich dataset of 103 indicators the study covers four environments of competitiveness 1 Macroeconomic Stability 2 Government and Institutional Setting 3 Financial Businesses and Manpower Conditions and 4 Quality of Life and Infrastructure Development It also presents each province and region's comparative strengths and weaknesses and conducts what if policy simulations to propose policy suggestions **A Compelling Case for Universities** Quintin McKellar, 2025-05-01 This book unapologetically celebrates the achievements of the University Major drivers of enlightenment and powerhouses of the economy universities have evolved and thrived for over a thousand years While still reflecting their beginnings in medieval knowledge sharing communities modern universities have grown exponentially in both size and number Predictions suggest global student numbers will more than double from 216 million in 2016 to 472 million in 2035 This growth has demanded new models of funding as well as many new providers who have added diversity and complexity to the traditional idea of a university The author recounts this exciting evolution before turning to the major issues with which higher education is concerned today broadly following the student journey from

admission to graduation and beyond A prospective university student first needs to gain a place the process throwing up important questions about access and equity Once admitted they can benefit from not only the education on offer but a wealth of extra curricular opportunities And research suggests that once they leave the experience of university will enrich their life in numerous ways With clearheaded chapters on research and innovation and thoughtful excursions into funding and governance together with some proposals for change this is a trenchant review of today s university landscape which nonetheless concludes that the current model of higher education is both highly effective and sufficiently adaptive Whilst facing up to difficult issues which must be addressed Professor McKellar derives satisfaction from the evidence of great overall achievement
