

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

and Translation Studies      **Verbal Communication** Andrea Rocci, Louis de Saussure, 2016-03-07 Common sense tells us that verbal communication should be a central concern both for the study of communication and for the study of language. Language is the most pervasive means of communication in human societies especially if we consider the huge gamut of communication phenomena where spoken and written language combines with other modalities such as gestures or pictures. Most communication researchers have to deal with issues of language use in their work. Classic methods in communication research from content analysis to interviews and questionnaires not to mention the obvious cases of rhetorical analysis and discourse analysis presuppose the understanding of the meaning of spontaneous or elicited verbal productions. Despite its pervasiveness verbal communication does not currently define one cohesive and distinct subfield within the communication discipline. The Handbook of Verbal Communication seeks to address this gap. In doing so it draws not only on the communication discipline but also on the rich interdisciplinary research on language and communication that developed over the last fifty years as linguistics interacted with the social sciences and the cognitive sciences. The interaction of linguistic research with the social sciences has produced a plethora of approaches to the study of meanings in social context from conversation analysis to critical discourse analysis while cognitive research on verbal communication carried out in cognitive pragmatics as well as in cognitive linguistics has offered insights into the interaction between language inference and persuasion and into cognitive processes such as framing or metaphorical mapping. The Handbook of Verbal Communication volume takes into account these two traditions selecting those issues and themes that are most relevant for communication scholars. It addresses background matters such as the evolution of human verbal communication and the relationship between verbal and non verbal means of communication and offers an extensive discussion of the explicit and implicit meanings of verbal messages with a focus on emotive and figurative meanings. Conversation and fundamental types of discourse such as argument and narrative are presented in depth as is the key notion of discourse genre. The nature of writing systems as well as the interaction of spoken or written language with non verbal modalities are devoted ample attention. Different contexts of language use are considered from the mass media and the new media to the organizational contexts. Cultural and linguistic diversity is addressed with a focus on phenomena such as multilingual communication and translation. A key feature of the volume is the coverage of verbal communication quality. Quality is examined both from a cognitive and from a social perspective. It covers topics that range from the cognitive processes underlying deceptive communication to the methods that can be used to assess the quality of texts in an organizational context.

**Live Long and Prosper** World Bank, 2015-12-10 Aging is a challenge which countries in East Asia and Pacific EAP regions are grappling with or will soon confront It raises many questions for policymakers ranging from potential macroeconomic impacts to fiscal challenges of supporting pension health and long term care systems and labor market implications as countries seek to promote productive aging The urgency of the aging challenge varies across the region but it will confront all EAP countries in time and early preparation is essential to avoid the missteps of other regions Live Long and Prosper discusses the societal and public policy challenges and reform options for EAP countries as they address aging It aims to strike a balance between aging optimists and pessimists On the one hand the impacts of aging on growth labor

markets and public spending are not the unavoidable catastrophe often feared. However, minimizing the downside risks of aging and ensuring healthy and productive aging will require proactive public policy, political leadership, and new mindsets across society. The report reviews the evidence on demographic transition in EAP and its potential macroeconomic impact. It addresses the current policy environment, including pensions and social security, health and long-term care, and labor markets, to assess the risks of business as usual. It also suggests policy directions to promote healthy and productive aging in EAP and emphasizes that aging is not just about older people but requires policy and behavioral change across the life cycle.
