Both black and white quilters inhabit the small farm region and their quilting traditions are largely shared across racial lines. A study that highlights shared culture rather than seeking to distinguish racial or ethnic contributions is a welcome direction in cultural research. Alan Jabbour, former director of the American Folklore Society Library of Congress, notes that prior to the 1960s quiltmaking thrived in the Tennessee Delta as a crucial source of warm bedcovers among cash-poor yet self-sufficient farm households. As agriculture mechanized, rural workers switched to factory jobs and could afford nicer houses and blankets. Quiltmaking survived because women, both black and white, reinvented it as a hobby that met personal and social needs. Though scholars have studied quilt styles with rural southern roots, few have considered black and white quiltmakers together or as part of a shared regional culture. In *Tennessee Delta Quiltmaking*, Teri Klassen traces how mid-twentieth-century common quilts developed from nineteenth-century styles. Through interviews with people from rural households, Klassen uncovers the ways in which designs and labor were shared and the ways in which quiltmaking was part of the small farm culture that was common to blacks and whites. While quiltmaking was a creative form passed down in families, limited means and accessible materials made it both a necessity and a highly evolved custom in southwestern Tennessee's upper Delta region. For families in this region, the quilt symbolized homemaker competence and self-reliance, a trait especially valued by sharecroppers and tenant farmers who owned no land. The culture of quiltmaking reflected living conditions and values of these folk, and Klassen details numerous changes in this culture from how it contributed to small farm stability to how industrialization affected the practice. By considering quiltmaking's practical, aesthetic, and social aspects in a historical, mixed-race context, *Tennessee Delta Quiltmaking* makes a unique contribution to the study of the Tennessee Delta and the understanding of common quilt design. TERI KLASSEN is a postdoctoral research associate at the Mathers Museum of World Cultures at Indiana University. Her articles have appeared in *Journal of American Folklore*, *Midwestern Folklore*, and *Journalism Quarterly*. [Georgia Quilts](#) Anita Zaleski Weinraub, 2006. Showcases a number of themes through which the common story of Georgia, its people, and its quilting legacy can be told in a comprehensive record of the diversity of quilting materials, methods, and patterns used in the state. Simultaneous. **The Quilter's Resource Book** Maggi McCormick Gordon, 2004. The definitive book on quiltmaking traditions from around the world. Includes techniques for making sample blocks; also covers patchwork and applique traditions. More than 250 full-color photographs of a full range of quilt designs.

**The Horns** Dale McMillan, 2013-05-17. The Horn family is a poor family but proud of their heritage descending from some of the early settlers who helped carve out homes in the dense forest of the Big Thicket area of East Texas. The Horns live a very primitive lifestyle which is hard but good. Lonnie and Martha Horn are not educated people by most standards; however, they are self-educated far beyond their formal education. This proves to be an enigma to the people in the nearby town of Pine Hill. Their six children are smart and industrious. Martha and Lonnie give each child responsibilities at a very early age and require them to accept and execute those responsibilities in an adult manner. This invokes the wrath of many in

the town of Pine Hill and the Foggy Bottom community where they live Rex Horn their oldest child has finished high school and is leaving home to attend college Beth and Mark assume his responsibilities Rex continues his long range courtship with Mary Ann Anderson who is now a student at Rice University Rex is at Stephen F Austin State College in Nacogdoches Texas 160 miles away Since WWII has ended progress is rapidly encroaching on the Foggy Bottom community Modern civilization is about to come to that area Lonnie and Martha are encouraging each of their children to plan toward a college education and they are struggling to position them financially to make that possible This is very difficult on a poor dirt farm and requires all of the family s effort
