book that came as a product of his work with a group that had been commissioned by President Woodrow Wilson to analyze possible peace settlements for World War I. Veblen here claims that patriotism is based on the idea of superiority of one nation over others and is often abused by governments especially in imperial monarchies. He explicitly says that the peace between democratic states and imperial monarchies can't be kept without disbanding one form of government and these claims were later confirmed. Working on this book marked a series of distinct changes in Veblen's later career path. Thorstein Veblen 1857-1929 was an American economist and sociologist. He is well known as a witty critic of capitalism. Veblen is famous for the idea of conspicuous consumption. Conspicuous consumption along with conspicuous leisure is performed to demonstrate wealth or mark social status. Veblen explains the concept in his best known book *The Theory of the Leisure Class*. Within the history of economic thought, Veblen is considered the leader of the institutional economics movement.
