**Stephen T. Hosmer**

## **Pantheon 150 2003:**

**Finding Monte Cristo** Eric Martone, 2018-08-29 During his lifetime Alexandre Dumas 1802 1870 grandson of a Caribbean slave and author of *The Three Musketeers* and *The Count of Monte Cristo* faced racial prejudice in his homeland of France and constantly strove to find a sense of belonging For him Monte Cristo was a symbol of this elusive quest It proved equally elusive for those struggling to overcome slavery and its legacy in the former French colonies Exiled to the margins of society 19th and 20th century black intellectuals from the Caribbean and Africa drew on Dumas work and celebrity to renegotiate their full acceptance as French citizens Their efforts were influenced by earlier struggles of African Americans in the decades after the Civil War who celebrated Dumas as a black American hero *Rome of To-day and Yesterday* John Dennie, 1896 *Age of Oprah* Janice Peck, 2015-12-03 Over the last two decades Oprah Winfrey's journey has taken her from talk show queen to as Time Magazine has asserted one of the most important figures in popular culture Through her talk show magazine website seminars charity work and public appearances her influence in the social economic and political arenas of American life is considerable and until now largely unexamined In *The Age of Oprah* media scholar and journalist Janice Peck traces Winfrey's growing cultural impact and illustrates the fascinating parallels between her road to fame and fortune and the political economic rise of neoliberalism in this country While seeking to understand Oprah's ascent to the near iconic status that she enjoys today Peck's book provides a fascinating window into the intersection of American politics and culture over the past quarter century *Panthéon de la Guerre: Reconfiguring a Panorama of the Great War* Mark Levitch, 2006-11 *Rome of Today and Yesterday* John Dennie, 1927 **Understanding Victory and Defeat in Contemporary War** Jan Angstrom, Isabelle Duyvesteyn, 2006-12-05 Bringing together leading contributors in the field this new volume analyzes how victory and defeat in modern war can be understood and explained It does so by confronting two inter related research problems the nature of victory and defeat in modern war and the explanations of victory and defeat By first questioning the extent to which the concepts of victory and defeat are meaningful to describe the outcomes of modern wars and whether the contents of these concepts are changing it then evaluates different theories purporting to explain the outcomes of war and the impact of variables ranging from technology to culture The book tackles several key questions What is the definition of victory in the War on Terror What is the meaning of victory and defeat in contemporary insurgencies such as those in Iraq and Afghanistan Are the counterstrategies that were developed in the mid twentieth century valid in order to deal with present and future conflicts With case studies ranging from the Malayan Emergency to the current conflict in Iraq *Understanding Victory and Defeat in Contemporary War* will be of great interest to students of war and conflict studies security studies military history and international relations **Fate, Glory, and Love in Early Modern Gallery Decoration** Margaretha Rossholm Lagerlof, 2017-07-05 Analysing the decorative programmes of the most opulent European palaces of the time Margaretha Rossholm Lagerlof investigates how meaning was conveyed through

display and visual effects She explores the visual meaning inherent in the scheme of spatial relations in effects of scale perspective lighting figures positions and postures and in relations among image types The analysis concerns the interrelations of various kinds of images in the ensembles the relations between images and physical site and the address to the beholder Lagerl f considers the visual impact of the imagery in conjunction with readable or symbolically coded meanings thus the study does not merely subject these decorations to formalist aesthetic principles She shows the visual meaning generally to sustain the verbal or readable messages but often in subtle ways extending or elaborating the meaning Occasionally the visual meaning comes forth as an undercurrent or complication deviating from the proclaimed and symbolic meaning Fate Glory and Love in Early Modern Gallery Decoration contributes to the body of scholarship on visual rhetoric and on how images act out their messages *The Human and the Divine* ,2025-02-13 This volume offers detailed insights into both familiar and overlooked aspects of how humans engage with sanctity and the divine in various cultures of Mesopotamia the Mediterranean and Beyond Each chapter is dedicated to a specific theme whether a region or phenomenon from Prehistoric times to the Modern era exposing readers to a whirlwind of impressions presented by individuals who have studied or been captivated by particular subjects Framing the individual case studies are broader presentations by the editors who highlight key issues with the aim of reviving a multidisciplinary dialogue and encouraging reader participation

**Popular Appeal** Lesley Hawkes,Vivienne Muller,Sharyn Pearce,2013-11-18 Now is an opportune moment to consider the shifts in youth and popular culture that are signalled by texts that are being read and viewed by young people In a world seemingly compromised by climate change political and religious upheavals and economic irresponsibility and at a time of fundamental social change young people are devouring fictional texts that focus on the edges of identity the points of transition and rupture and the assumption of new and hybrid identities This book draws on a range of international texts to address these issues and to examine the ways in which key popular genres in the contemporary market for young people are being re defined and re positioned in the light of urgent questions about the environment identity one s place in the world and the fragile nature of the world itself The key questions are What are the shifts and changes in youth culture that are identified by the market and by what young people read and view How do these texts negotiate the addressing of significant questions relating to the world today Why are these texts so popular with young people What are the most popular genres in contemporary best sellers and films Do these texts have a global appeal and if so why These over arching themes and ideas are presented as a collection of inter related essays exploring a rich variety of forms and styles from graphic novels to urban realism from fantasy to dystopian writing from epic narratives to television musicals The subjects and themes discussed here reveal the quite remarkable diversity of issues that arise in youth fiction and the variety of fictional forms in which they are explored Once seen as not as important as adult fiction this book clearly demonstrates that youth fiction and the popular appeal of this fiction is complex durable and far reaching in its scope *The Character of War in the 21st Century* Caroline

Holmqvist-Jonsäter, Christopher Coker, 2009-12-04 This edited volume addresses the relationship between the essential nature of war and its character at the beginning of the twenty first century The focus is on the conflicts in Iraq and Afghanistan situations that occupy a central role in international affairs and that have become highly influential in thinking about war in the widest sense The intellectual foundation of the volume is Clausewitz s insight that though war has an enduring nature its character changes with time space social structure and culture The fact that war s character varies means that different actors may interpret experience and ultimately wage war differently The conflict between the ways that war is conceptualised in the prevailing Western and international discourse and the manner in which it plays out on the ground is a key discussion point for scholars and practitioners in the field of international relations Contributions combine insights from social theory philosophy sociology and strategic studies and ask directly what contemporary war is and what the implications are for the future This book will be of much interest to students of war studies strategic studies security studies and IR in general Caroline Holmqvist Jonsäter is currently completing a PhD in the conflation of war and policing in international conflicts at the Department of War Studies King s College London Christopher Coker is Professor of International Relations at the London School of Economics and Political Science LSE He is the author of 11 books on war and security issues

The Social Outcast Kipling D. Williams, Joseph P. Forgas, William Von Hippel, 2013-05-13 This book focuses on the ubiquitous and powerful effects of ostracism social exclusion rejection and bullying Human beings are an intrinsically gregarious species Most of our evolutionary success is no doubt due to our highly developed ability to cooperate and interact with each other It is thus not surprising that instances of interpersonal rejection and social exclusion would have an enormously detrimental impact on the individual Until 10 years ago however social psychology regarded ostracism rejection and social exclusion as merely outcomes to be avoided but we knew very little about their antecedents and consequences and about the processes involved when they occurred Furthermore the literatures of ostracism social exclusion and rejection have not until now included discussions of the bullying literature

Purpose and Power Donald Stoker, 2024-01-11 Across the full span of the nation s history Donald Stoker challenges our understanding of the purposes and uses of American power From the struggle for independence to the era of renewed competition with China and Russia he reveals the grand strategies underpinning the nation s pursuit of sovereignty security expansion and democracy abroad He shows how successive administrations have projected diplomatic military and economic power and mobilized ideas and information to preserve American freedoms at home and secure US aims abroad He exposes the myth of American isolationism the good and ill of America s quest for democracy overseas and how too often its administrations have lacked clear political aims or a concrete vision for where they want to go Understanding this history is vital if America is to relearn how to use its power to meet the challenges ahead and to think more clearly about political aims and grand strategy

**Why the Iraqi Resistance to the Coalition Invasion was So Weak** Stephen T. Hosmer, 2007 Research brief summarizes an analysis of information derived

from interviews with former senior Iraqi officials to determine factors contributing to the rapid collapse of Iraqi resistance to the Coalition invasion of Iraq in March and April 2003

**Comics Studies** Charles Hatfield, Bart Beaty, 2020-08-14 Nominee for the 2021 Eisner Awards Best Academic Scholarly Work In the twenty first century the field of comics studies has exploded Scholarship on graphic novels comic books comic strips webcomics manga and all forms of comic art has grown at a dizzying pace with new publications institutions and courses springing up everywhere The field crosses disciplinary and cultural borders and brings together myriad traditions Comics Studies A Guidebook offers a rich but concise introduction to this multifaceted field authored by leading experts in multiple disciplines It opens diverse entryways to comics studies including history form audiences genre and cultural industrial and economic contexts An invaluable one stop resource for veteran and new comics scholars alike this guidebook represents the state of the art in contemporary comics scholarship

*South and Meso-American Mythology A to Z* Ann Bingham, Jeremy Roberts, 2010 Alphabetically listed entries identify and explain the characters events important places and other aspects of South American and Meso American mythology

**Untold Valor** Rob Morris, 2006 First hand accounts of Europe's air war from those who beat the odds

**Monumentality and the Roman Empire** Edmund Thomas, 2007-11-16 The quality of monumentality is attributed to the buildings of few historical epochs or cultures more frequently or consistently than to those of the Roman Empire It is this quality that has helped to make them enduring models for builders of later periods This extensively illustrated book the first full length study of the concept of monumentality in Classical Antiquity asks what it is that the notion encompasses and how significant it was for the Romans themselves in moulding their individual or collective aspirations and identities Although no single word existed in antiquity for the qualities that modern authors regard as making up that term its Latin derivation from monumentum a monument attests plainly to the presence of the concept in the mentalities of ancient Romans and the development of that notion through the Roman era laid the foundation for the classical ideal of monumentality which reached a height in early modern Europe This book is also the first full length study of architecture in the Antonine Age when it is generally agreed the Roman Empire was at its height By exploring the public architecture of Roman Italy and both Western and Eastern provinces of the Roman Empire from the point of view of the benefactors who funded such buildings the architects who designed them and the public who used and experienced them Edmund Thomas analyses the reasons why Roman builders sought to construct monumental buildings and uncovers the close link between architectural monumentality and the identity and ideology of the Roman Empire itself

*Post-9/11 American Presidential Rhetoric* Colleen Elizabeth Kelley, 2008-01-01 Post 9 11 American Presidential Rhetoric examines the communication offensive orchestrated by George W Bush and the members of his administration between the initial terrorism crisis of September 11 2001 and the March 20 2003 invasion of Iraq Colleen Elizabeth Kelley argues that the president relied on a set of particular strategies that coalesced into protofascist talk in order to discursively manage the post 9 11 situation and justify its 2003 war against Iraq This book suggests a framework

for analyzing emergent fascist public discourse and its potential for producing additional substantial antidemocratic speech and action Kelley further reviews the role of the media in conveying President Bush's rhetorical doctrine to the American public The rhetoric of democratic discourse is presented as a firewall to guarantee that such speech based behaviors which are endorsed by willing publics and developed within democracies fail to thrive and do not destroy the very systems that enabled them in the first place Post 9 11 American Presidential Rhetoric is a stimulating text that will strike up discussion among scholars of political communication and those interested in cultural studies

**The Sisterhood: Inside the Lives of Mormon Women** Dorothy Allred Solomon, 2007-10-02 A revealing look at Mormon women's relationships and experiences

**The SAGE Guide to Curriculum in Education** Ming Fang He, Brian D. Schultz, William H.
