**Flows and Practices** Lyla Mehta, Bill Derman, 2017-05-19 For the past two decades Integrated Water Resources Management IWRM has been the dominant paradigm in water resources This book explores how ideas of IWRM are being translated and adapted in Mozambique South Africa Tanzania Uganda and Zimbabwe Grounded in social science theory and research it highlights the importance of politics history and culture in shaping water management practices and reform and demonstrates how Africa has clearly been a laboratory for IWRM While a new cadre of professionals made IWRM their mission we show that poor women and men may not have always benefitted In some cases IWRM has also offered a distraction from more critical issues such as water and land grabs privatisation the negative impacts of water permits and a range of institutional ambiguities that prevent water allocations to small and poor water users By critically examining the interpretations and challenges of IWRM the book contributes to improving water policies and practices and making them more locally appropriate in Africa and beyond

**Zimbabwe's Trajectory V.** Masunungure, 2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa's esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009-2013 Virtually all development indicators point in the wrong direction and the crisis of poverty unemployment and the erosion of health education and other public goods continues

unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe s Trajectory tells the story of the country s post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world *The World of Science Education* Femi S. Otulaja,Meshach B. Oggunniyi,2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next *Validating Technological Innovation* David Coniam,Peter Falvey,2016-04-02 This book discusses Hong Kong s use of onscreen marking OSM in public examinations Given that Hong Kong leads the way in OSM innovation this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders **Strengthening Sector Policies for Better Food Security and Nutrition Results:** Food and Agriculture Organization of the United Nations,2018-11-07 Social protection is a key strategy in the fight against hunger and malnutrition By addressing the underlying causes of hunger social protection programmes can enhance households food consumption along with their ability to produce food and augment income In the absence of social protection the food insecure are often forced to cope in ways that further increase their vulnerability and undermine their future income The extension of social protection to these population groups is critical however the depth of its impacts depends on how programmes are designed and implemented This social protection guidance note supports policy dialogue by considering different programming design options for social protection to better contribute to food security and nutrition outcomes *Digital Heritage* Marinos Ioannides,Nadia Magnenat-Thalmann,Eleanor Fink,Roko Zarnic,Alex-Yianing Yen,Ewald Quak,2014-11-12 This book constitutes the refereed proceedings of the 5th International Conference on Digital Heritage EuroMed 2014 held in Limassol Cyprus in November 2014 The 84 full and 51 short papers presented were carefully reviewed and selected from 438 submissions They focus on the interdisciplinary and multi disciplinary research concerning cutting edge cultural heritage informatics physics chemistry
