They emanate from seven countries: Australia, Northern Ireland, Norway, Portugal, Spain, Sweden, and Switzerland. Ever since Freutel invented the kindergarten, mathematics has been a part of early childhood pedagogy. Mathematics is an important part of children's daily life which helps them to understand the world around them. Nowadays, early childhood mathematics is in the international spotlight. Partly this is the result of myriad studies that seem to show that early childhood mathematics achievement is a strong predictor of success or otherwise in future school mathematics, other school subjects and life itself. Another influence on early childhood mathematics education is the advent of the political and advocacy juggernaut known as STEM: Science, Technology, Engineering, and

Teacher Quality and Education Policy in India
Preeti Kumar,Alexander W. Wiseman,2021-03-31 By drawing on quantitative data and qualitative analyses of five major national education policies implemented in India over the last 15 years this comprehensive volume explores their impact on teacher quality and perceived effectiveness explaining how this relates to variations in student performance Responding to a national agenda to increase the quality of the Indian teacher workforce Teacher Quality and Education Policy in India critically questions the application of human capital theory to Indian education policy Chapters provide in depth and strategically structured analyses of five national policies including the recently approved National Education Policy NEP 2020 to see how Indian policymakers use teacher quality as a driver and measurement of education and national economic development Ultimately the text offers evidence based policy recommendations to improve teacher quality in India suggesting that while all five policies have contributed significant frameworks and recommendations for teacher quality reform they have failed to move beyond a symbolic function Given its rigorous methodological approach this book will be a valuable addition to the under researched question of education policymaking in postcolonial contexts It will be an indispensable resource not only for scholars working on policymaking in the Indian context but also for those working at the intersection of education teacher development and policymaking in developing countries
