

SETSWANA

Paper 3158/01
Language

General comments

Most candidates performed quite well in this year's examination. Many were able to mention important and relevant facts in their compositions in **Section A** which enhanced their quality. It was observed that some of the candidates who performed well in **Section A** did not quite reach the same level of achievement in **Section B**, suggesting that future candidates may need to practise further the skill of writing for a specific purpose (such as an article, a letter, report, or speech). It was pleasing to see that candidates performed better in **Section C** than in previous years. **Section D** was also well attempted.

Comments on specific questions

Section A

Composition

In this section most candidates chose to answer **Question (a)** or **Question (d)**.

Question (a)

Candidates showed great interest and knowledge in the social and political aspects of this question. Their performances might have been further enhanced had they used more Setswana words and phrases instead of words borrowed English, for instance: *polelo* instead of *sefori* (story), *seromamo* instead of *radio-radio* and *sejanaga* instead of *lori* (car).

All in all, this topic was well attempted, with the strongest candidates showing a wide knowledge of farming in Botswana.

Question (b) and (c)

These questions were well answered, and the candidates who tackled them did so with confidence, thereby usually achieving a high score.

Question (d)

The overall response to this question was good. Some candidates did not perform well, as their compositions were not always very imaginative or engaging, suggesting they were not sufficiently well prepared for writing a narrative composition.

The structure of most of the compositions was sound: the introduction was well thought out and the story was often brought to a suitable conclusion, but the main body of the story was not always very engaging.

Many candidates used words derived from English instead of idiomatic Setswana vocabulary, e.g. *bese* (bus) instead of *koloj ya mosepele* and *phoni-mobile* instead of *mogala wa lotheka*.

Section B

The compositions in this section were generally well structured. Many candidates wrote impressive introductions, comprehensive discussions, and persuasive conclusions. Most chose a suitable location like the Kgotla as the setting.

Integrational Linguistics and Philosophy of Language in the Global South Sinfree B. Makoni, Deryn P. Verity, Anna Kaiper-Marquez, 2021-05-26 Exploring the nature of possible relationships between Integrational Linguistics and Southern Epistemologies this volume examines various ways in which Integrational Linguistics can be used to support the decolonizing interests of Southern Epistemologies particularly the lay oriented nature of Integrational Linguistics that Southern Epistemologies find productive as a positive counter discourse As both an anti elitist and antiestablishment way of thinking these chapters consider how Integrational Linguistics can be consistent with the decolonial aspirations of Southern Epistemologies They argue that the relationship between Southern Epistemologies and Integrational Linguistics is complicated by the fact that while Integrational Linguistics is critical of what it calls a

segregationist view of language i.e the language myth Southern Epistemologies in language policy and planning and minority language movements find the language myth helpful in order to facilitate social transformation And yet both Integrational Linguistics and Southern Epistemologies are critical of approaches to multilingualism that are founded on notions of named languages They are also both critical of linguistics as a decontextualized and institutionalized extension of ordinary metalinguistic practices which at times influence the prejudices preconceptions and ideologies of dominant western cultures This book will prove to be an essential resource for scholars and students not only within the field of integrational linguistics but also in other language and communication fields in particular the dialogic distributed and ecological enactive approaches wherein integrational linguistics has been subjected to scrutiny and criticism
