CAPITAL PUNISHMENT

Evaluate the effectiveness of the legal and non-legal responses in concerns with the contemporary human rights issue of capital punishment.

Human rights are the basic universally recognised liberties and entitlements accorded to all people that are inalienable but unfortunately these rights in the use of capital punishment are abused. Capital Punishment also referred to as the death penalty, or execution is a legal process whereby a person is put to death by the state as a punishment for a crime such as murder, aggravated sexual assault, apostasy, treason and in more recent times the trafficking of humans and drugs. Over 60% of the world's population live in countries where a person's right to "humane treatment" and to a life of "liberty and freedom" is violated because of the use of capital punishment. Both legal and non-legal methods have undertaken various measures to address the issue of capital punishment.

Legal methods such as United Nations Resolutions and Protocols and international and domestic legislation have been put in place in order to achieve "A Global Moratorium on Capital Punishment".

The United Nation as a Global Entity encourages its nation states to move for a "Global Moratorium on Capital Punishment" through its binding resolutions and protocols. The United Nations Convention on the Right of the Child in article 37 prohibits the subjection of a juvenile to torture, capital punishment and deprivation of liberty and the Second Optional Protocol to the International Covenant on Civil and Political Rights in its 11 articles stresses the necessity of a universal ban on capital punishment. Although the United Nations is a very influential power without the initial signing and ratification of its binding resolutions and protocols a nation state is not liable when breaching any of the articles within the resolution/ protocol due to a its right to state sovereignty "a countries ability to enforce its own laws".

Global legislation concerning the abolishment of capital punishment is dependent on the initial signing and ratification of United Nations resolutions and protocols.

The Australian Federal Government passed into Legislation the abolishment of capital punishment with the Death Penalty Abolition Act 1973 (Cth) which ratifies the Second Optional Protocol to the International Covenant on Civil and Political Rights and the Universal Declaration of Human Rights. This legislation forbids the use of capital punishment and makes R v Ronald Ryan (VIC) 1966 the last person executed on Australia soil.

But without the initial signing and ratification of United Nations resolution and protocols nations are allowed to use capital punishment in the sentencing of an offender. An example of this is the case of *Singapore v Van Tuong Nguyen (2005)* ("Terrified Walk to a Long-Drop Execution." *The Daily Telegraph*, December 1, 2005), where Van Nguyen (an Australian citizen) was hung in Changi prison on the 2nd of December 2005 under Singapore's "Mandatory

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes **Capital Punishment and British Politics** James B. Christoph, 2023-03-08 First published in 1962 Capital Punishment and British Politics illuminates the process of political decision making in Britain by analysing the complex activities that led to the passage of a major piece of social legislation the Homicide Act of 1957 His case study based on dozens of interviews reveals in detail the workings of British politics and assesses the impact of the clash of ideas and interests on governmental policy After surveying the legal and historical antecedents of the controversy surrounding the Act the author traces the development from the abortive attempt to abolish the death penalty under the

Labour Government through the spectacular murder cases of the early fifties to the compromise legislation successfully launched by a Conservative Government Throughout the book analysis is coupled with description and the concluding chapter demonstrates how this single case contained in microcosm many of the basic elements and dilemmas of the British political process This fascinating study will be of great interest to students of politics and social legislation everywhere

The Ethics of Capital Punishment Matthew H. Kramer, 2011-12-15 Taking a fresh look at a central controversy in criminal law theory The Ethics of Capital Punishment presents a rationale for the death penalty grounded in a theory of the nature of evil and the nature of defilement Original unsettling and deeply controversial it will be an essential reference point for future debates on the subject
