

DRUG ABUSE

Substance abuse is when you take drugs that are not legal. It's also when you use alcohol, prescription medicine, and other legal substances too much or in the wrong way. Substance abuse differs from addiction. Many people with substance abuse problems are able to quit or can change their unhealthy behavior. Addiction, on the other hand, is a disease. It means you can't stop using even when your condition causes you harm.

Commonly Abused Drugs

Both legal and illegal drugs have chemicals that can change how your body and mind work. They can give you a pleasurable "high," ease your stress, or help you avoid problems in your life.

REASONS AND REPERCUSSIONS OF DRUG ABUSE

Drug addiction refers to the compulsive and repeated use of increasing amounts of drugs with the appearance of withdrawal symptoms when drug use ceases. While the specific causes of drug addiction are not known, genetic, psychological and environmental factors are thought to play a significant role. Rather than a single cause of drug addiction, it is likely multiple factors lead to drug addiction in any given person.

Some drug addicts also identify drug use and ignorance as a cause of drug addiction. Often, if a person is dealing with pain-management issues, the drug they receive, like oxycodone, can be very addictive. The ignorance of the drug's addiction potential, along with the physical pain of the condition, becomes a cause of drug addiction.

Psychological Causes of Drug Addiction

While biological causes of drug addiction have been suggested, many people still believe psychological factors comprise the bulk of what causes drug addiction. Some of the psychological causes of drug addiction appear to stem from trauma, often when the drug addict is young. Sexual or physical abuse, neglect, or chaos in the home can all lead to psychological stress, which people attempt to "self-medicate" (decrease the stress's pain through drug use). This self-medication becomes a cause of drug addiction.¹

Other psychological causes of drug addiction include:
