Blum,2012-12-06 This series in Computers and Medicine had its origins when I met Jerry Stone of Springer Verlag at a SCAMC meeting in 1982 We determined that there was a need for good collections of papers that would help disseminate the results of research and application in this field I had already decided to do what is now Information Systems for Patient Care and Jerry contributed the idea of making it part of a series In 1984 the first book was published and thanks to Jerry s efforts Computers and Medicine was underway Since that time there have been many changes Sadly Jerry died at a very early age and cannot share in the success of the series that he helped found On the bright side however many of the early goals of the series have been met As the result of equipment improvements and the

consequent lowering of costs computers are being used in a growing number of medical applications and the health care community is very computer literate Thus the focus of concern has turned from learning about the technology to understanding how that technology can be exploited in a medical environment Report United States.
