**A Profile of the Farm Machinery Industry** Dawn M. Drake, 2013-12-28 The farm machinery industry though dominated by three large companies is a complex sector of the global manufacturing economy that encompasses many smaller manufacturers as well While contributing a small percentage to gross world product it is vitally important to another key sector of the economy agriculture Consequently the recent rise in global crop prices has allowed the industry to be more resilient than other mature manufacturing sectors like automobiles The proposed book will provide a concise but comprehensive look at the farm machinery industry its history organization competitors and the challenges and opportunities the industry faces as a result of regulations globalization and outside market forces This will be done as a means of understanding a crucial building block to the success of agriculture's ability to feed the expanding world population

**Overview of the evolution of agricultural mechanization in Nigeria** Takeshima, Hiroyuki, Lawal, Akeem, 2018-08-17 Demand for mechanization in Nigeria is growing in a fairly consistent way predicted by economic theories The farming system has intensified and the use of animal traction has grown at a substantial rate Demand side factors considerably explain the low adoptions of tractors in Nigeria Where demand is sufficient for tractors the private sector has emerged over time as a more efficient provider of hiring services particularly farmer to farmer services than the public sector Conditions are consistent with the hypotheses that because of generally low support for the agricultural sector in Nigeria in the past few decades agricultural mechanization tractor use in particular has remained low despite the declining share of the workforce engaged in the agricultural sector Agricultural transformation in the form of a declining agricultural labor force has happened partly through the growth in the oil industry since the 1970s Instead of inducing further exit from farming tractor adoptions in Nigeria might have helped those who have remained in farming to

start expanding their production scale A knowledge gap however still remains regarding the dominance of large tractors and the potential effects of tractor adoptions on smallholders who have yet to adopt them Solongus1 Hwang, Kyu-ho,2015-02-17 Solongus is a full length business novel focused on the on going automotive industry in the world Thus it is not a period novel on Turf Fight of Power But it is an epitome of warlike competition on a global product that is a horseless carriage automobile Currently global automakers such as GM Ford Toyota Volks Wagon BMW Benz Renault Fiat Hyundai Tata Chinese Big Four and other dark horses are fiercely competing for the market share in the world to get the popularity from earthlings as if they were Pretenders to the throne in the world Right here their class acts in the borderless battlefield are portrayed art of war in the Heroic Age In the book series their versatile strategies and skilled tactics are also revealed under the shiny commercial slogans of course with their own chariots *Daily Graphic* Ransford Tetteh,2010-03-03

*Everybody's Business* Jon Miller,2013-10-10 Sometimes it seems as if business exists purely to enrich a small elite While the world is facing unprecedented challenges it appears that businesses are only interested in making profits or paying bonuses Big businesses are powerful machines We all know they have the potential to cause enormous social and environmental harm but with their resources and expertise they can also be great engines of positive change Rather than fighting the power of business should we be seeking to harness it Everybody's Business is a journey through the business world We meet the companies that are driving business forward by mobilising to tackle the challenges we all face At its heart this is a story of businesses doing what they do best delivering products and services that people need creating jobs and finding new ways to solve old problems It's a story of people taking the initiative and finding inspiration in the positive impact of their actions We see how some of today's leading companies are realising that lasting success comes from having a purpose broader than making a profit They know that business should benefit customers employees suppliers neighbours and the wider world as well as shareholders Enduring value comes from making business
