Markus Widmer, 2007-07-29 Swiss Diploma Thesis from the year 2000 in the subject American Studies Literature grade 1.5 A University of Zurich English Seminar 77 entries in the bibliography language English abstract Philip K Dick s science fiction can be seen as a discussion of the human condition in a world where nothing is what it seems Human identity has become uncertain as has the nature of reality itself This Dickian ontology has a striking similarity to postmodernist theories by thinkers such as Jameson Baudrillard and McHale most of whom by the way have a weak spot for science fiction The discussion of Philip K Dick s novels and short stories against a backdrop of postmodernist theory leads to conclusions that are not only relevant for the author s particular poetics but for the ontology of our lives in times that science fiction couldn t have imagined This work focusses on Philip K Dick s unstable worlds and subjects investigating Dickian space time and meaning as well as the author s subjects and the question of schizophrenia and paranoia Works discussed include Ubik Time Out of Joint The Man in the High Castle A Maze of Death Eye in the Sky A Scanner Darkly Martian Time Slip and Impostor *The Twisted Worlds of Philip K. Dick* Umberto Rossi, 2014-01-10 Philip K Dick was one of the most popular science fiction novelists of the 20th century but the contradictory and wily writer has troubled critics who attempt encompassing explanations of his work This book examines Dick s writing through the lens of ontological uncertainty providing a comparative map of his oeuvre tracing both the interior connections between books and his allusive intertextuality Topics covered include time travel alternate worlds androids and simulacra finite subjective realities and schizophrenia Twenty novels are explored in detail including titles that have received scant critical attention Some of his most important short stories and two of his realist novels are also examined providing a general introduction to Dick s body of work
