Oduor,2022-06-21 A 2023 Choice Reviews Outstanding Academic Title Africa beyond Liberal Democracy In Search of Context Relevant Models of Democracy for the Twenty First Century explores possible future trajectories of democratization on the continent At the dawn of political independence in the late 1950s and early 1960s many countries in Africa set out with liberal democratic constitutions However these were quickly dismantled by civilian regimes that turned their countries into one party autocracies or by military coups that set aside the constitutions altogether The 1990s saw an attempt at reverting to competitive multi party politics through the so called second generation constitutions but these are again being dismantled by civilian autocracies and military juntas In this collection edited by Reginald M J Oduor African and Africanist scholars examine the view that what has failed in Africa is liberal democracy rather than democracy as such because liberal democracy arose in an individualist socio political Western context that is significantly different from the communalist milieu of African societies The contributors from a variety of disciplines in the humanities and social sciences andbased in South Africa Zimbabwe Kenya Uganda Tanzania Nigeria Ghana India Sweden and Finland present a range of perspectives on possible directions for context relevant models of democracy in the various countries of Africa in the twenty first century

Beyond Inhumanity Scherto Gill,2025-04-21 Collective efforts to address the legacies of slavery and colonialism tend to orient solely towards dealing with material compensation such as reducing economic disparity and levelling access to public services However communities directly impacted by the dehumanizing legacies have insisted on a broader reckoning one that recognizes all dimensions of the harms including the spiritual injury and the relevant psychosocial trauma inflicted across the generations They remind us that harms of structural injustice extend beyond the material the physical and the psychological also entangling the moral relational and spiritual fabric of human life Understanding harms of inhumanity brings to light the layers of damage and is key to identifying interdisciplinary approaches to collective healing social transformation and the well being of all This book emerges from the ongoing intellectual dialogue as part of the UNESCO Collective Healing Initiative The Initiative focuses on healing the wounds of inhumanity co creating just societies and enhancing the flourishing of current and future generations **Ubuntu Unleashed** Matthew Helmke, **African Philosophy and Environmental Conservation** Jonathan Chimakonam,2017-10-04 African Philosophy and Environmental Conservation is about the unconcern for and marginalisation of the environment in African philosophy The issue of the environment is still very much neglected by governments corporate bodies academics and specifically philosophers in the sub Saharan Africa The entrenched traditional world views which give a place of privilege to one thing over the other as for example men over

women is the same attitude that privileges humans over the environment This culturally embedded orientation makes it difficult for stake holders in Africa to identify and confront the modern day challenges posed by the neglect of the environment In a continent where deep rooted cultural and religious practices as well as widespread ignorance determine human conduct towards the environment it becomes difficult to curtail much less overcome the threats to our environment It shows that to a large extent the African cultural privileging of men over women and of humans over the environment somewhat exacerbates and makes the environmental crisis on the continent intractable For example it raises the challenging puzzle as to why women in Africa are the ones to plant the trees and men are the ones to fell them Contributors address these salient issues from both theoretical and practical perspectives demonstrating what African philosophy could do to ameliorate the marginalisation which the theme of environment suffers on the continent Philosophy is supposed to teach us how to lead the good life in all its forms why is it failing in this duty in Africa specifically where the issue of environment is concerned This book which trail blazes the field of African Philosophy and Environmental Ethics will be of great interest to students and scholars of Philosophy African philosophy Environmental Ethics and Gender Studies 'Is It Global War on Terrorism' or Global War over Terra Africana? Nkwazi Nkuzi Mhango, 2017-12-06 Global War on Terrorism or Global War over Terra Africana How Imperial Powers Seek to Occupy Africa Militarily is a long onerous academic voyage of the demystification and demythologization of the Global War on Terror former US president George W Bush and former UK premier Tony Blair conceived envisaged and declared for their hidden personal and national interests It is a hidden and untold story of the other side about the GWOT which is but the GWOTA Major arguments presented gyrate around the deconstruction and overhaul of the GWOT so that it can be equally formulated and fought by all nations for the interests of all but not the interests of some as it currently is Also the book repudiates the pontification the pontifex maximus of the GWOTA have always made ex nihilo while concealing their drive s for perpetually exploiting poor countries Terrorism is a world phenomenon everybody must fight provided it is collectively agreed decided and declared for the collective good and interests of the world but not the interests of a few hegemonic countries that usurped the power of declaring who is a terrorist and who is not Although terrorism is real the manner it is fought is a little bit knotty This tome acts as an eye opener and a wake up call for Africa to start interrogating and excavating the hidden truths about the GWOT chiefly the way it was enacted declared presented and now fought with essentialist and controversialist modus operandi and rationale Other major questions asked and answered are Why exporting military and military hardware guised as fighting terrorism without underscoring the terror military incursion will inter alia cause to Africa especially If truly the aim of the GWOT is to wage war on terror why doesn't the West want to empower African armies Why did the US appoint itself to lead the war conceived and declared without meeting the requirements of the just war or international standards Why hasn't the world learned from Iraq and Libya whose governments were toppled under the facade of the GWOT Is it the GWOT or the GWOTA
