Overcoming Adversity: The 2010 NBA All-Stars Tex Greene, 2023-11-09 Why are these grown men getting paid millions of dollars to play a child's game Inevitably if you've been around the game of basketball long enough you've heard some cynical adult ask this question It seems fair getting paid millions to play basketball every night in front of adoring fans does sound like one of the easiest gigs in the world But there's a lot more to it than that No one has an easy journey to reap the rewards waiting for them at the highest level of basketball Only 3 percent of high school athletes earn scholarships to play in college and only 0.03 percent turn pro Of those 0.03 percent there are only so many who have successful careers make the millions players dream of and don't go broke almost immediately after retiring There's plenty of elite hoopsters but to make it to the highest level of basketball you have to be the best in the world One thing all the elite players have in common are insane work ethics and sometimes some luck in genetics Inside this book you'll find stories of the relentless work and hours that these stars have put in when all the lights are shut off no one's watching and it's just them and the basketball Because when basketball is someone's only ticket out of a rough life gang wars drugs and violence you won't believe how good at the game they'll become

The Sports Industry's War on Athletes Peter Finley, Laura L. Finley, 2006-07-30 In America sports are a popular passion and an astoundingly lucrative business as well Americans pay out millions of dollars annually for channels and stadiums to bring them closer to their favorite players and every year young athletes go to greater lengths to reach those exalted fields of play themselves Unfortunately in the quest to offer an ever more compelling product the sports industry is blind to the manner in which that product is created Doping playing through injury and eating disorders are widespread problems in both professional and college athletics and speak volumes about the lengths to which people will go in order to make themselves successful Dirty play hazing and cheating are common even at the lowest levels Most troubling of all however are the societal problems created by the sports industry which include racism sexism classism and homophobia Peter and Laura Finley's comprehensive work confronts the many problems facing athletics today Using numerous examples both historical and current they begin with the issue as they exist at the highest levels and as they are represented in the media They then go on to look at how the values and models expressed by professionals are adopted and utilized by coaches parents and eventually by amateur athletes of all ages Finally the Finleys provide recommendations for improving the sports environment in America suggesting ways we can work to counteract some of these many harmful influences to ensure that sports realize their potential as a positive and rewarding activity
