Student Politics in Africa Luescher, Thierry M., Klemencic, Manja, 2016-05-12 The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa Most authors are early career academics who teach and conduct research in universities across the continent and who came together for a research project and related workshops and a symposium on student representation in African higher education governance The book includes theoretical chapters on student organising student activism and representation chapters on historical and current developments in student politics in Anglophone and Francophone Africa and in depth case studies on student representation and activism in a cross section of universities and countries The book provides a unique resource for academics university leaders and student affairs professionals as well as student leaders and policy makers in Africa and elsewhere Innovating University Education

Ssempebwa, Jude, Neema-Abooki, Peter, 2017-09-26 Makerere University started in 1922 as a humble technical school enrolling 14 day students of Carpentry Building and Mechanics Nine decades later the University has made giant strides enrolling over 35 000 students in over 145 study programmes hosted by nine colleges spread across various campuses As one of the first higher education institutions in East and Central Africa the university has had to contend with a multiplicity of issues including relevance curricula reform community engagement and graduate employability access equity massification and quality assurance national politics regulation institutional autonomy and academic freedom funding and financial management student politics and activism staff unionisation management and brain drain physical resources expansion utilisation and maintenance liberalisation privatisation commercialisation and internationalisation Information and Communication Technology ICT and institutional leadership and integrity Today the University stands out proudly as a hallmark of innovation and excellence in teaching research and community engagement notwithstanding the challenges it has experienced over the years As it celebrates 90 years the higher education scholarly and policy fraternity take the opportunity to honour and continue the University's tradition of scholarship and innovation through contributing ideas for dealing with some of the challenges that the University and similar institutions are contending with Although studies of Makerere University have been included it must be understood that this book is not necessarily about the University Additional studies have been drawn from Botswana Ethiopia Ghana Kenya Malawi Nigeria Tanzania and other institutions in Uganda

American Higher Education in a Global Context Cristina González, 2022-02-14 American Higher Education in a Global Context Historical Perspectives describes the current state of universities on each continent providing a comprehensive analysis of the numerous factors that have affected higher education systems around the world This book studies higher education from its emergence in antiquity to the establishment of the American research university model and its adoption around the globe through the current Covid 19 pandemic and concomitant economic and political crisis The

author pays special attention to the shortcomings of the neoliberal trend of the last four decades which increased social stratification at institutions of higher learning Calling for an expansion of access to tertiary education and in particular to research universities this book examines the competition between China and the United States in the field of higher education stressing the importance of academic freedom without which there can be no true academic excellence

South Sudan Skills Story Lawrence M. Tombe, 2017-09-28 The South Sudan Skills Story is an account about manpower and education development in South Sudan a narrative that includes efforts exerted in attainment of the much needed workforce for fuelling the countrys economy now fatally impacted by the ongoing internal strife Prior to escalation of the armed conflict that broke out in December 2013 hardly four years after the country gained its sovereignty on July 9 2011 the new nation was on course in setting up its new education system and basis of sustainable human development now shattered by the vicious war The conflict has eroded the countrys human potential through loss of life skills wastage and extreme brutalities perpetrated against citizens by the war drivers The education quandary is compounded by displacement of over 3 million people from their homes and localities a dire situation that has caused severe food insecurity affecting over 7.5 million people With over 2 million children forced out of school particularly in the most conflict affected regions of South Sudan including over 1.4 million forced out of the country as refugees to neighbouring countries it means that one in every three children in the country is out of school The scale and magnitude of the unending human dispersal has severely curtailed South Sudans ability to provide education to all its citizens The once adopted slogan of bringing education to all in the country is now a far cry as the new nation heads to total collapse if the conflict is not halted The South Sudan Skills Story urges the leaders of South Sudan who are proponents of the conflict to rise above self serving political cleavages to stop the war for peace so that all the citizens are availed the opportunity to realize their fullest potential for development of the country The narrative concludes that the people of this young nation will remain one of the most undereducated populations in the world as long as the legacy of war violence and impunity prevails in the country

Issues of Governance, Security, and Development in Contemporary Africa Mohamed Saliou Camara, Alem Hailu, Sabella O. Abidde, 2023-12-15 Governance security and development are three critical components of a dialectical nexus that is both dominant and determinant for any objective and fruitful quest for the understanding of the trajectory of a country a region or in the case of Africa a continent from a colonial past to a neocolonial and meta colonial present and toward a future of strategic optimal independence and self reliance That colonial past and the ensuing neocolonial and meta colonial present have made these critical components and the dialectical nexus that they form particularly challenging for the African continent For this reason Issues of Governance Security and Development in Contemporary Africa offers an in depth interdisciplinary analysis of the challenges that contemporary Africa faces within these critical areas as well as the resources and prospects that the continent possesses and can leverage to overcome the said challenges Using case studies involving a range of countries across the continent Mohamed Saliou Camara

Alem Hailu and Sabella O Abidde argue that Africa needs to decolonize the terms of reference that guide its nation building statecraft and national development agenda in ways that will facilitate the establishment of viable systems of governance and security and the promotion of genuine development

[Africa](#) Toyin Falola, Daniel Jean-Jacques, 2015-12-14 These volumes offer a one stop resource for researching the lives customs and cultures of Africa's nations and peoples Unparalleled in its coverage of contemporary customs in all of Africa this multivolume set is perfect for both high school and public library shelves The three volume encyclopedia will provide readers with an overview of contemporary customs and life in North Africa and sub Saharan Africa through discussions of key concepts and topics that touch everyday life among the nations peoples While this encyclopedia places emphasis on the customs and cultural practices of each state history politics and economics are also addressed Because entries average 14 000 to 15 000 words each contributors are able to expound more extensively on each country than in similar encyclopedic works with shorter entries As a result readers will gain a more complete understanding of what life is like in Africa's 54 nations and territories and will be better able to draw cross cultural comparisons based on their reading

[Christian Higher Education](#) Joel Carpenter, Perry L. Glanzer, Nicholas S. Lantinga, 2014-03-07 This book offers a fresh report and interpretation of what is happening at the intersection of two great contemporary movements the rapid growth of higher education worldwide and the rise of world Christianity It features on site evaluative studies by scholars from Africa Asia North America and South America Christian Higher Education A Global Reconnaissance visits some of the hotspots of Christian university development such as South Korea Kenya and Nigeria and compares what is happening there to places in Canada the United States and Europe where Christian higher education has a longer history Very little research until now has examined the scope and direction of Christian higher education throughout the world so this volume fills a real gap

Testing and Inclusive Schooling Bjorn Hamre, Anne Morin, Christian Ydesen, 2018-05-11 Testing and Inclusive Schooling provides a comparative perspective on seemingly incompatible global agendas and efforts to include all children in the general school system thus reducing exclusion With an examination of the international testing culture and the politics of inclusion currently permeating national school reforms this book raises a critical and constructive discussion of these movements which appear to support one another yet simultaneously offer profound contradictions With contributions

from around the world the book analyses the dilemma arising between reforms that urge schools to move towards a constantly higher academic level and those who practice a politics of inclusion leading to a greater degree of student diversity The book considers the types of problems that arise when reforms implemented at the international level are transformed into policies and practices firmly placing global educational efforts into perspective by highlighting a range of different cases at both national and local levels Testing and Inclusive Schooling sheds light on new possibilities for educational improvements in global and local contexts and is essential reading for academics researchers and postgraduate students interested in international and comparative education assessment technologies and practices inclusion educational psychology and educational policy Last Lectures on the Prevention and Intervention of Genocide Samuel

Totten, 2017-09-29 Last Lectures on the Prevention and Intervention of Genocide is a collection of hypothetical last lectures by some of the top scholars and practitioners across the globe in the fields of human rights and genocide studies Each lecture purportedly constitutes the last thing the author will ever say about the prevention and intervention of genocide The contributions to this volume are thought provoking engaging and at times controversial reflecting the scholars most advanced thinking about issues of human rights and genocide This book will be of great interest to professors researchers and students of political science international relations psychology sociology history human rights and genocide studies

The Knights of Columbus Andrew T. Walther, Maureen H. Walther, 2020-07-16 What You Don't Know About the Knights of Columbus Could Fill a Book and It Has This book tells a uniquely American story of faith in action From its 1882 founding by a handful of men from a small predominantly Irish Catholic parish in New Haven Connecticut the Knights of Columbus has grown to an international brotherhood of nearly 2 million members across North America and throughout the world Formed by Father Michael J McGivney with the men of his parish the new fraternal organization was committed to the principles of charity and unity while supporting the faith and financial viability of its members and their families From its earliest days the organization made the case that one could be both a good Catholic and a true American citizen pushing back against the religious discrimination that was all too common It would soon grow into an organization whose members supported one another while also contributing to their parishes their communities their countries and the world Lavishly illustrated with hundreds of beautiful photos *The Knights of Columbus An Illustrated History* presents the story of this remarkable organization and the many ways in which it has helped individuals while also helping shape American and world history at key moments You will discover the Knights decisive contributions during times of disaster as far back as the San Francisco earthquake and fire of 1906 and as recently as Hurricanes Katrina Sandy and Harvey The book presents K of C's very public resistance to the Ku Klux Klan and its message of hate in the 1920s just one example of the Knights stand against bigotry Also featured is the Knights respect for the importance of education as the group worked to rectify the historical inaccuracies of the nation's textbooks and narratives during the 1920s That work would help to tell the previously overlooked stories of

America's Catholics, African Americans and Jews among others. Also highlighted is the organization's active role in the fight for religious freedom throughout the world from its involvement in ending the Mexican government's persecution of Catholics during the 1920s to its current work to end persecution of religious minorities in the Middle East and provide assistance for ISIS genocide survivors. K of C support for America's troops and veterans saw soldiers through two world wars and continues today. In nearly a century and a half since its humble beginnings, the Knights of Columbus has touched the lives of countless individuals, Catholic and non-Catholic, in communities around the world. Through war and peace, it has remained a consistent example of faith in action, assisting its neighbors next door and around the world with help and hope, faith and freedom.

Territorial Disputes and State Sovereignty Jorge E. Núñez, 2020-05-11. Adopting a multi-disciplinary approach, this book opens new ground for research on territorial disputes. Many sovereignty conflicts remain unresolved around the world. Current solutions in law, political science, and international relations generally prove problematic to at least one of the agents part of these differences. Arguing that disputes are complex, multi-layered, and multi-faceted, this book brings together a global, interdisciplinary view of territorial disputes. The book reviews the key conceptual elements central to legal and political sciences with regards to territorial disputes, state sovereignty, and self-determination. Looking at some of the current, long-standing disputes worldwide, it compares and contrasts the many issues at stake and the potential remedies currently available in order to assess why some territorial disputes remain unresolved. Finally, it offers a set of guidelines for dispute settlement and conflict resolution that current remedies fail to provide. It will appeal to students and scholars working in international relations, legal theory, and jurisprudence, public international law, and political sciences.

Censorship Derek Jones, 2001-12-01. Censorship: A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice. For each country in the world, the history of censorship is described and placed in context, and the media censored are examined: art, cyberspace, literature, music, the press, popular culture, radio, television, and the theatre, not to mention the censorship of language, the most fundamental censorship of all. Also included are surveys of major controversies and chronicles of resistance. Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression.

Catholicism Gerald O'Collins, Mario Farrugia, 2015. The bestselling Catholicism has now been revised and updated for an eagerly anticipated second edition. This lucid and accessible account explains how Roman Catholicism and its beliefs and practices came to be what they are. Renowned scholars Gerald O'Collins and Mario Farrugia move through history to sum up the present characteristics of Catholic Christianity and the major challenges it faces in the third millennium. Clear and engaging, the authors present matters in a fresh and original way. They skilfully depict the Catholic heritage and show that Catholicism is a dynamic and living faith. O'Collins and Farrugia engage with contemporary moral issues and explore the challenges which Catholics and other Christians must face. This is an
