, 2018-07-28 *Dosage Form Design Parameters Volume I* examines the history and current state of the field within the pharmaceutical sciences presenting key developments Content includes drug development issues the scale up of formulations regulatory issues intellectual property solid state properties and polymorphism Written by experts in the field this volume in the *Advances in Pharmaceutical Product Development and Research* series deepens our understanding of dosage form design parameters Chapters delve into a particular aspect of this fundamental field covering principles methodologies and the technologies employed by pharmaceutical scientists In addition the book contains a comprehensive examination suitable for researchers and advanced students working in pharmaceuticals cosmetics biotechnology and related industries Examines the history and recent developments in drug dosage forms for pharmaceutical sciences Focuses on physicochemical aspects preformulation solid state properties and polymorphism Contains extensive references for further discovery and learning that are appropriate for advanced undergraduates graduate students and those interested in drug dosage design

### **Valorization of Fruit Processing By-products**

Charis M. Galanakis, 2019-09-14 *Valorization of Fruit Processing By-products* covers the most recent advances in the field of fruit processing by products following sustainability principles The urgent need for sustainability within the food industry necessitates research to investigate the handling of by products with another perspective e g by adapting more profitable options This book covers the latest developments in this particular direction It promotes success stories and solutions that ensure the sustainable management of different fruit processing by products namely apple apricot avocado Castanea sativa citrus date mango melon passion fruit pineapple pink guava pomegranate and watermelon giving emphasis on the recovery of polyphenols antioxidants and dietary fiber Written by a team of experts in food processing and engineering chemistry and food waste this title is the definite guide for all the

involved partners engineers professionals and producers active in the field Explores fruit processing techniques scale up limitations and economical evaluation for each source of fruit processing by product Discusses the valorization of by products derived from different fruits Features the following fruits including apple avocado chestnut citrus date mango melon and watermelon passion fruit pineapple pink guava and pomegranate

**Handbook of Econometrics** ,2020-11-25 Handbook of Econometrics Volume 7A examines recent advances in foundational issues and hot topics within econometrics such as inference for moment inequalities and estimation of high dimensional models With its world class editors and contributors it succeeds in unifying leading studies of economic models mathematical statistics and economic data Our flourishing ability to address empirical problems in economics by using economic theory and statistical methods has driven the field of econometrics to unimaginable places By designing methods of inference from data based on models of human choice behavior and social interactions econometricians have created new subfields now sufficiently mature to require sophisticated literature summaries Presents a broader and more comprehensive view of this expanding field than any other handbook Emphasizes the connection between econometrics and economics Highlights current topics for which no good summaries exist

*Chemical Engineering in the Pharmaceutical Industry* David J. am Ende,Mary T. am Ende,2019-04-23 A guide to the development and manufacturing of pharmaceutical products written for professionals in the industry revised second edition The revised and updated second edition of *Chemical Engineering in the Pharmaceutical Industry* is a practical book that highlights chemistry and chemical engineering The book s regulatory quality strategies target the development and manufacturing of pharmaceutically active ingredients of pharmaceutical products The expanded second edition contains revised content with many new case studies and additional example calculations that are of interest to chemical engineers The 2nd Edition is divided into two separate books 1 Active Pharmaceutical Ingredients API s and 2 Drug Product Design Development and Modeling The active pharmaceutical ingredients book puts the focus on the chemistry chemical engineering and unit operations specific to development and manufacturing of the active ingredients of the pharmaceutical product The drug substance operations section includes information on chemical reactions mixing distillations extractions crystallizations filtration drying and wet and dry milling In addition the book includes many applications of process modeling and modern software tools that are geared toward batch scale and continuous drug substance pharmaceutical operations This updated second edition Contains 30new chapters or revised chapters specific to API covering topics including manufacturing quality by design computational approaches continuous manufacturing crystallization and final form process safety Expanded topics of scale up continuous processing applications of thermodynamics and thermodynamic modeling filtration and drying Presents updated and expanded example calculations Includes contributions from noted experts in the field Written for pharmaceutical engineers chemical engineers undergraduate and graduate students and professionals in the field of pharmaceutical sciences and manufacturing the second edition of *Chemical Engineering in the Pharmaceutical*

Industry focuses on the development and chemical engineering as well as operations specific to the design formulation and manufacture of drug substance and products      **Profiles of Drug Substances, Excipients, and Related Methodology**

Harry G. Brittain, 2018-04-17 Profiles of Drug Substances Excipients and Related Methodology Volume 43 presents comprehensive reviews of drug substances and additional materials with critical review chapters that summarize information related to the characterization of drug substances and excipients The series encompasses review articles and database compilations that fall within a variety of categories with this release focusing on Ganciclovir Mirtazapine Tolfenamic Acid Mid Infrared Spectroscopy of Pharmaceutical Solids and the Validation of Chromatographic Methods of Analysis Application for drugs that derived from herbs Contains contributions from leading authorities Informs and updates on all the latest developments in the field of drug substances excipients and methodologies      **Processing, Analyzing and Learning of**

**Images, Shapes, and Forms: Part 2**, 2019-10-15 Processing Analyzing and Learning of Images Shapes and Forms Part 2 Volume 20 surveys the contemporary developments relating to the analysis and learning of images shapes and forms covering mathematical models and quick computational techniques Chapter cover Alternating Diffusion A Geometric Approach for Sensor Fusion Generating Structured TV based Priors and Associated Primal dual Methods Graph based Optimization Approaches for Machine Learning Uncertainty Quantification and Networks Extrinsic Shape Analysis from Boundary Representations Efficient Numerical Methods for Gradient Flows and Phase field Models Recent Advances in Denoising of Manifold Valued Images Optimal Registration of Images Surfaces and Shapes and much more

ECCWS2016-Proceedings fo the 15th European Conference on Cyber Warfare and Security " Robert Koch, Gabi Rodosek, 2016-06-15 These proceedings represent the work of researchers participating in the 15th European Conference on Cyber Warfare and Security ECCWS 2016 which is being hosted this year by the Universitat der Bundeswehr Munich Germany on the 7 8 July 2016 ECCWS is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings display their work in progress and discuss conceptual and empirical advances in the area of Cyberwar and Cyber Security It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of Cyberwar and Cyber Security research available to them With an initial submission of 110 abstracts after the double blind peer review process there are 37 Academic research papers and 11 PhD research papers 1 Master's research paper 2 Work In Progress papers and 2 non academic papers published in these Conference Proceedings These papers come from many different countries including Austria Belgium Canada Czech Republic Finland France Germany Greece Hungary Ireland Kenya Luxembourg Netherlands Norway Portugal Romania Russia Slovenia South Africa Sweden Turkey UK and USA This is not only highlighting the international character of the conference but is also promising very interesting discussions based on the broad treasure trove of experience of our community and participants      *Use of Recycled Plastics in Eco-efficient Concrete*

F. Pacheco-Torgal, Jamal Khatib, Francesco Colangelo, Rabin Tuladhar, 2018-11-21 *Use of Recycled Plastics in Eco efficient Concrete* looks at the processing of plastic waste including techniques for separation the production of plastic aggregates the production of concrete with recycled plastic as an aggregate or binder the fresh properties of concrete with plastic aggregates the shrinkage of concrete with plastic aggregates the mechanical properties of concrete with plastic aggregates toughness of concrete with plastic aggregates modulus of elasticity of concrete with plastic aggregates durability of concrete with plastic aggregates concrete plastic waste powder with enhanced neutron radiation shielding and more thus making it a valuable reference for academics and industrial researchers Describes the main types of recycled plastics that can be applied in concrete manufacturing Presents for the first time state of the art knowledge on the properties of conventional concrete with recycled plastics Discusses the technological challenges for concrete manufactures for mass production of recycled concrete from plastic waste

*Universal Jurisdiction over Core International Crimes* Lachezar Yanev, Harmen van der Wilt, 2025-09-10 This timely book explores how the domestic courts of states across Europe North America and Oceania have defined and applied their substantive laws in universal jurisdiction trials for core international crimes It considers what universal justice actually looks like in the national courtrooms of diverse states and probes the extent to which there is uniformity in the pursuit to punish universally condemned crimes
