[Aging Veterans with Disabilities](#) Arie Rimmerman,2020-10-15 The number of older war veterans receiving disability benefits is steadily growing and is predicted to rise in the next decade This book provides comprehensive knowledge about health and psychosocial concerns of veterans aging with disabilities and unmet needs and compares policy in three countries that have been involved in massive warfare in the 20th century the United Kingdom UK the United States US and Israel Using a cross national comparative study of the policies legislation and services provided by these three countries which have significant numbers of aging disabled military veterans this book provides evidence based knowledge on the trajectories and attendant mental health and psychosocial problems this sub group faces when aging with a disability It sheds light on the paradox in which most veterans with disabilities in the UK USA and Israel are older while the current legislation and budget target younger veterans with disabilities The book reflects the current debate regarding the desired policy toward older veterans with disabilities in these countries and whether to provide them with proactive health services prior to retirement to prevent accelerated aging It also evaluates the dilemma of whether to serve aging veterans separately

as a unique population or to provide them with the same services used by the general population This book will be of interest to all academics and students working in disability studies rehabilitation studies gerontology psychology sociology social work social policy and law more broadly The Military Balance 2013 The International Institute for Strategic Studies (IISS),2020-12-14 The Military Balance 2013 is the annual assessment of the military capabilities and defence economics of 171 countries world wide New features of the 2013 edition include reorganised and expanded analytical essays New sections on trends in contemporary armed conflicts in Afghanistan and Syria as well as trends in defence capability areas with a focus on equipment technological or doctrinal developments There is also an essay on trends in defence economics and procurement one on European defence industries and another on anti access area denial detailed analysis of regional and national defence policy and economic issues for selected states updated graphics feature on comparative defence statistics with focus on defence economics and major land sea and air capability concerns tables graphics and analysis of defence economics issues additional national capability summaries additional data on land forces combat support and combat service support new graphics and maps on defence capability issues and additional data on cyber capabilities HC 527 - The Armed Forces Covenant in Action Part 5: Military Casualties Great Britain. Parliament. House of Commons. Defence Committee,2014 Although Armed Forces personnel have a lower rate of criminal offending than the general population the rate for violent incidents is substantially higher particularly amongst those who have previously been deployed in combat roles and those who misuse alcohol The MoD needs to understand better the links between deployment alcohol misuse and violent behaviour especially domestic violence In particular there has been no research as to the incidence of domestic violence amongst Armed Forces personnel The Committee also found a shocking backlog in the processing of claims for War Pensions and for the Armed Forces Compensation Scheme The Committee is concerned that the demand for support from the Defence Recovery Capability already exceeds supply Veterans need more support navigating the overlapping bureaucracy of the health system Despite assurances from the MoD and the Department of Health the Committee is concerned that as operations in Afghanistan and Iraq fade from the public s mind and personnel move on to other lives the necessary long term support for those injured physically and psychologically will not be maintained The MoD in conjunction with the Health Service has introduced some measures to support veterans with mental health problems and amputees but other conditions also require this focus The MoD should monitor the results of its work and report the outcomes in its annual report on the Armed Forces Covenant *Insights in Occupational Health and Safety: 2021* Luigi Vimercati,2022-09-05 *The Great Super Cycle* David Skarica,2010-11-02 The United States has a problem a big problem Due to costs associated with the massive bailout of financial institutions deemed too big to fail on going armed conflicts and a move towards socialism another even bigger bubble is about to burst the debt bubble The Great Super Cycle Profit from the Coming Inflation Tidal Wave and Dollar Devaluation is an intriguing look at the relationship between Washington and Wall Street the history of political shifts

in power and how those shifts influenced the global economy and the ways investors can profit as economies move away from U S dollar and debt The book Discusses how a socialist America will result in the U S economy becoming far less competitive while causing funds to move offshore Details how investors can profit by investing in gold oil and Asian markets Explains major cyclical movements from the mega cycle of world power to stock market cycles which last 10 20 years As the United States begins to deal with its massive debt bubble The Great Super Cycle just might prove the most powerful tool an investor has for making money in the turbulent years to come

Case Studies on Managing Government Compensation and Employment - Institutions, Policies, and Reform Challenges International Monetary Fund,2016-12-04 This supplement presents country case studies reviewing country experiences with managing wage bill pressures which are the basis for the compensation and employment reform lessons identified in the main paper The selection of countries for the case studies reflects past studies carried out by either the IMF or the World Bank in the context of technical assistance or bilateral surveillance Table 1 These studies provide important insights into the different sources of wage bill pressures as well as the reform challenges governments have faced when addressing these pressures over the short and medium term The studies cover 20 countries including five advanced economies six countries from sub Saharan Africa two countries in developing Asia one country in the Middle East and North Africa three countries in Latin America and the Caribbean and three countries in Central and Eastern Europe and the CIS The structure of each case study is similar with each study starting with a presentation of the institutional coverage and framework for setting and managing the wage bill a description of employment and compensation levels including their comparison with the private sector and a discussion of the challenges that motivated the need for reforms and when applicable the reforms implemented and lessons derived from these

Civil-Military Entanglements Birgitte Refslund Sørensen,Eyal Ben-Ari,2019-07-16 Military civilian encounters are multiple and diverse in our times Contributors to this volume demonstrate how military and civilian domains are constituted through entanglements undermining the classic civil military binary and manifest themselves in unexpected places and manners Moreover the essays trace out the ripples reverberations and resonations of civil military entanglements in areas not usually associated with such ties but which are nevertheless real and significant for an understanding of the roles war violence and the military play in shaping contemporary societies and the everyday life of its citizens

Reforming UK Public Policy Through Elected Regional Government Malcolm J. Prowle,2022-08-12 This book takes an in depth look at the enormous challenges facing UK public services and considers what might be done to resolve them The authors are confident that more of the same over centralised approaches to public policy and so called levelling up policies

will just not work. Instead they argue for an application of radical measures involving the creation of elected regional governments in England similar to the devolved arrangements in Wales, Scotland and Northern Ireland. The book comprises four distinct parts: introduction and context; the need for major reform; policies for individual public services and cross-cutting themes. Following an introduction and discussion of the meaning of the terms public policy and public services, the first part goes on to discuss at length the substantial challenges to public policy and public services. The second part sets out the need for overarching reforms designed to address the issues discussed above, namely the development of elected regional governments. Each chapter in part three explores key themes concerning individual public policy areas and public services, while part four discusses a number of themes which cut across all the public services already considered. Although the book is focused on and is of great relevance within the UK, it also has international appeal as many of the themes discussed will have resonance in other countries and the analysis of public policy in regional administrations will also be of interest in other jurisdictions. It will appeal to students and academics in the fields of government and politics, economics, finance and accounting, public administration, public service management and social policy, as well as policymakers, practicing civil servants, public service managers and elected representatives. Managing Government Compensation and Employment - Institutions, Policies, and Reform Challenges International Monetary Fund. Fiscal Affairs Dept., 2016-08-04. Government compensation and employment policies are important for the efficient delivery of public services which are crucial for the functioning of economies and the general prosperity of societies. On average, spending on the wage bill absorbs around one fifth of total spending. Cross-country variation in wage spending reflects in part national choices about the government's role in priority sectors as well as variations in the level of economic development and resource constraints. *Parliamentary Debates (Hansard)*. Great Britain. Parliament. House of Commons, 2014. , *The Economics of Military Spending* Adem Yavuz Elveren, 2019-05-17. The Economics of Military Spending offers a comprehensive analysis of the effect of military expenditures on the economy. It is the first book to provide both a theoretical and an empirical investigation of how military spending affects the profit rate, a key indicator of the health of a capitalist economy. The book presents a general discussion on the economic models of the nexus of military spending and economic growth as well as military Keynesianism and the military industrial complex. Including an account of the Marxist crisis theories, it focuses on military spending as a counteracting factor to the tendency of rate of profit to fall. Using a range of econometric methods and adopting a Marxist perspective, this book provides comprehensive evidence on the effects of military spending on the rate of profit for more than thirty countries. The findings of the book shed light on the complex linkages between military spending and the profit rate by considering the role of countries in the arms trade. Offering a Marxist perspective and an emphasis on quantitative analysis, The Economics of Military Spending will be of great interest to students and scholars of defence and peace economics as well as Marxist
