**Umberto Boccioni's States of Mind** Sonya Shrier, 2018 This thesis examines Umberto Boccioni's series the States of Mind 1911 and discusses how these works represent a breakthrough in the artist's search to find a pictorial expression for concepts that occupied him throughout his career The States of Mind exists in four complete iterations each comprised of three images The Farewells Those Who Go and Those Who Stay The first set of oil paintings begun in late summer of 1911 are in the Divisionist style and are in the collection of the Civica Galleria d'Arte Moderna in Milan A set of charcoal and cont drawings on paper likely completed in the fall of 1911 show the influence of the Symbolist style are in the collection of New York's Museum of Modern Art A second series of oil paintings also in MoMA's collection was completed towards the end of 1911 These display an inflection of cubism and were reworked after the artist's trip to Paris in November in the same year Finally a series of pen and ink drawings based on the second painted version which were then translated into xylographic prints or woodcuts for reproduction in the German magazine *Der Sturm* Though the States of Mind has been established as one of the most important works in Boccioni's oeuvre and among the most significant in the Futurist movement an in depth monographic study on the work has never been written This thesis looks at the States of Mind in the context of a number of key topics the influence of the artistic movements Divisionism and Symbolism the impact of Henri Bergson's philosophies the significance of the railway station setting and the intended ordering of the States of Mind's three panels Through this study a more nuanced understanding of this seminal work will emerge

**The Force of Art** Krzysztof Ziarek, 2004 Redefining art as a transformative forcework The Force of Art offers a new theory of the artwork in which art's force is explained as a contestation of power in its modern technological manifestations

**Inventing Futurism** Christine Poggi, 2009 Sumario Futurist velocities Folla follia futurism and the crowd Umberto Boccioni's The city rises picturing the futurist metropolis Photogenic abstraction Giacomo Balla's iridescent interpenetrations Dreams of metallized flesh futurism and the masculine body Futurist love luxury and lust Return of the repressed vicissitudes of the futurist machine Aesthetics under fascism

In Visible Touch Terry Smith, 1997 This collection of essays explores the representation of heterosexual masculinity embodied in modernist art It examines such major modernists as Cezanne Caillebotte Matisse Wyndham Lewis and Boccioni to offer a history of how artists sought to shape their sexuality in their work *Early Modernism* Christopher Butler, 1994 Early Modernism is a uniquely integrated introduction to the great avant garde movements in European literature music and painting at the beginning of this century from the advent of Fauvism to the development of Dada In contrast to the overly literary focus of previous studies of modernism this book highlights the interaction between the arts in this period It traces the fundamental and interlinked re examination of the languages of the arts brought about by Matisse Picasso Schoenberg Eliot Apollinaire Marinetti Ben and many others which led to radically new techniques such as atonality cubism and collage These changes are set in the context both of the art that preceded them and of a new and profound shift in ideas Theories of

the unconscious the association of ideas primitivism and reliance upon an expressionist intuition led to a reshaped conception of personal identity and Butler examines the representation of the modernist self in the work of figures including Mann Joyce Conrad and Stravinsky Accessible and wide ranging the book is lavishly illustrated with over sixty illustrations many in color It provides an elegant and incisive guide to a momentous period in the history of European art *Modernism* Lawrence Rainey,2005-07-15 *Modernism* An Anthology is the most comprehensive anthology of Anglo American modernism ever to be published Amply represents the giants of modernism James Joyce Gertrude Stein Virginia Woolf T S Eliot Ezra Pound Wallace Stevens Marianne Moore Samuel Beckett Includes a generous selection of Continental texts enabling readers to trace modernism s dialogue with the Futurists the Dadaists the Surrealists and the Frankfurt School Supported by helpful annotations and an extensive bibliography Allows readers to encounter anew the extraordinary revolution in language that transformed the aesthetics of the modern world *Ether and Modernity* Jaume Navarro,2018-08-30 *Ether and Modernity* offers a snapshot of the status of an epistemic object the ether or aether in the early twentieth century The contributed papers show that the ether was often regarded as one of the objects of modernity hand in hand with the electron radioactivity or X rays and not simply as the stubborn residue of an old fashioned long discarded science The prestige and authority of scientists and popularisers like Oliver Lodge and Arthur Eddington in Britain Phillip Lenard in Germany or Dayton C Miller in the USA was instrumental in the preservation defence or even re emergence of the ether in the 1920s Moreover the consolidation of wireless communications and radio broadcasting indeed a very modern technology brought the ether into audiences that would otherwise never have heard about such an esoteric entity The ether also played a pivotal role among some artists in the early twentieth century the values of modernism found in the complexities and contradictions of modern physics such as wireless action or wave particle puzzles a fertile ground for the development of new artistic languages in literature as much as in the pictorial and performing arts Essays on the intellectual foundations of Umberto Boccioni s art the linguistic techniques of Lodge and Ernst Mach s considerations on aesthetics and physics witness to the imbricate relationship between the ether and modernism Last but not least the ether played a fundamental part in the resurgence of modern spiritualism in the aftermath of the Great War This book examines the complex array of meanings strategies and milieus that enabled the ether to remain an active part in scientific and cultural debates well into the 1930s but not beyond This portrait may be easily regarded as the swan song of an epistemic object that was soon to fade away as shown by Paul Dirac s unsuccessful attempt to resuscitate some kind of aether in 1951 with which this book finishes **Hidden Fields** Charles Ford,2008-02 Poetry can give the readers a chance to make better choices in their lives *Hidden Fields* prepares them to examine their self religion and philosophy by the spirit of poetry Charles Ford wants to share his many life experiences with readers and invite them into his home by his every thought word and action So they may know him and discover something special and unique about themselves He wrote poems for people throughout history rather than to them Poems

offer for people even for readers who know little poetry All are unique alive or dead In Hidden Fields Charles brings to readers his experiences and his individuations which he expresses wonderfully by his ever deepening imagination and understanding that he has about poetry These poems about self embodied metaphysics of his faith hope and love Charles writes poems about religion and philosophy they are also in the vein of metaphysics These poems reveal his profound spiritual growth that he achieved in his life He experienced a religious conversion at three He shares this experience and many others with readers so they may know he writes poems from his heart by inspiration and love he has for God and man
