Advanced Information Systems Engineering Anne Banks Pidduck, John Mylopoulos, Carson C. Woo, M.T. Ozsu, 2003-08-01
The explosive growth of the Internet and the Web have created an ever growing demand for information systems and ever growing challenges for Information Systems Engineering The series of Conferences on Advanced Information Systems Engineering CAiSE was launched in Scandinavia by Janis Bubenko and Arne Solvberg in 1989 became an important European conference and was held annually in major European sites throughout the 1990s Now in its 14th year CAiSE was held for the first time outside Europe showcasing international research on information systems and their engineering Not surprisingly this year the conference enjoyed unprecedented attention In total the conference received 173 paper submissions the highest number ever for a CAiSE conference Of those 42 were accepted as regular papers and 26 as short poster papers In addition the conference received 12 proposals for workshops of which 8 were approved while 4 tutorials were selected from 15 submissions The technical program was put together by an international committee of 81 experts In total 505 reviews were submitted with every member of the committee contributing Decisions on all submissions were reached at a program committee meeting in Toronto on January 26-27 2002 Workshop and tutorial proposals were handled separately by committees chaired by Patrick Martin workshops and Jarek Gryz and Richard Paige tutorials We wish to extend a great THANK YOU to all members of the program and organizing committees for their volunteer contributions of time and expertise The fact that so many busy and famous people took the trouble to help us with the organization of this conference and the formation of its technical program speaks well for the future of CAiSE and the field of Information Systems Engineering

Design and Applications of Intelligent Agents Chengqui Zhang, Von-Wun Soo, 2003-05-15 PRIMA 2000 was the third in the series of Pacific Rim International Workshops on Multi Agents It was held on August 28-29 2000 in Melbourne Australia in conjunction with the Pacific Rim International Conference on Artificial Intelligence 2000 PRIMA is the main forum for the agent or multi agent researchers in Pacific Rim countries to exchange and discuss their research results This volume contains selected papers from PRIMA 2000 It covers theory design and applications of intelligent agents The specific aspects include coordination negotiation learning architecture specification allocation and application of intelligent agents All papers are of high quality because each of them was reviewed and recommended by at least two international renowned program committee members Many people contributed to this volume We would like to thank all the authors who submitted papers to the workshop Many thanks also to the members of the program committee who diligently reviewed all the papers Finally we thank the editorial staff of Springer Verlag for publishing this volume in the Lecture Notes in Artificial Intelligence series

Formal Methods for Open Object-Based Distributed Systems Marcello M. Bonsangue, Einar Broch Johnsen, 2007-06-27 This book constitutes the refereed proceedings of the 9th IFIP WG 6.1 International Conference on Formal Methods for Open Object Based Distributed Systems FMOODS 2007 held in Paphos Cyprus June 2007 The 17 revised full papers presented together with two invited

papers cover model checking rewriting logic components and services algebraic calculi specification verification and refinement and quality of service **Advanced Information Systems Engineering** ,2004 Handbook of Research in Mobile Business, Second Edition: Technical, Methodological and Social Perspectives Unhelkar, Bhuvan,2008-12-31 This book collects the latest research advances in the rapidly evolving field of mobile business Provided by publisher **ECRTS 2003** ,2003 Annotation The typical subjects treated in the conference are traditionally related to scheduling communication operating systems design methods computer architectures networks performance analysis and many more During the last few years the field of real time systems quickly expanded toward new application areas including multimedia computing embedded systems and wireless networks Such new domains gave rise to new challenges and stimulated research in novel directions such as quality of service management energy aware computing stochastic scheduling and feedback based techniques for adaptive operating systems *Model Driven Architecture* Uwe Aßmann,Mehmet Aksit,Arend Rensink,2005-08-18 Model Driven Architecture MDA is an initiative proposed by the Object Management Group OMG for platform generic software development MDA separates the specification of system functionality from the implementation on a specific platform It is aimed at making software assets more resilient to changes caused by emerging technologies While stressing the importance of modeling the MDA initiative covers a wide spectrum of research areas Further efforts are required to bring them into a coherent approach based on open standards and supported by matured tools and techniques This volume contains these selected papers of two workshops on Model Driven Architecture Foundations and Applications MDAFA MDAFA 2003 held at the University of Twente Twente The Netherlands June 26 27 2003 and MDAFA 2004 held at Linköping University Linköping Sweden June 10 11 2004 The goal of the workshops was to understand the foundations of MDA to share experience in applying MDA techniques and tools and to outline future research directions The workshops organizers encouraged authors of accepted papers to resubmit their papers to a post workshop reviewing process 15 of these papers were accepted to appear in this volume on MDA Engineering Knowledge in the Age of the Semantic Web Enrico Motta,Nigel Shadbolt,Arthur Stutt,Nick Gibbins,2011-03-22 The central themes of the 14th International Conference on Knowledge Engineering and Knowledge Management EKAW 2004 were ontological engineering and the Semantic Web These provide the key foundational and delivery mechanisms for building open Web based knowledge services However consistent with the tradition of EKAW conferences EKAW 2004 was concerned with all aspects of eliciting acquiring modelling and managing knowledge and its role in the construction of knowledge intensive systems Indeed a key aspect of the Knowledge Acquisition Workshops KAWs held in the US Europe and Asia over the past 20 years has been the emphasis on holistic knowledge engineering addressing problem solving usability socio technological factors and knowledge modelling rather than simply analyzing and designing symbol level inferential mechanisms The papers included in this volume are thus drawn from a variety of research areas both at the cutting edge of research in ontologies and the Semantic Web and in the more

traditionally grounded areas of knowledge engineering A Semantic Web service can be seen as the addition of semantic technologies to Web services to produce Web accessible services that can be described using appropriate ontologies reasoned about and combined automatically Since Web services can be seen as Web accessible computational objects much of the work in this area is also concerned with problem solving methods PSMs Information Technology and Innovation Trends in Organizations Alessandro D'Atri, Maria Ferrara, Joey F. George, Paolo Spagnoletti, 2011-07-07 The book examines a wide range of issues that characterize the current IT based innovation trends in organisations It contains a collection of research papers focusing on themes of growing interest in the field of Information System Organization Studies and Management The book offers a multi disciplinary view on Information Systems aiming to disseminate academic knowledge It might be particularly relevant to IT practitioners such as information systems managers business managers and IT consultants The volume is divided into XIV sections each one focusing on a specific theme A preface written by Joey George president of the Association for Information Systems opens the text The content of each section is based on a selection of the best papers original double blind peer reviewed contributions presented at the annual conference of the Italian chapter of AIS which has been held in Naples Italy on October 2010 **Enterprise Inter- and Intra-Organizational Integration**

Kurt Kosanke, Roland Jochem, James G. Nell, Angel Ortiz Bas, 2013-06-05 The international initiative on Enterprise Inter and Intra Organisational Integration EI3 IC had the objective to increase both international consensus IC and public awareness on enterprise integration In these proceedings we intend to present the current status in inter and intra organisational integration for electronic commerce and thereby to further increase awareness and consensus within academia and industry about enterprise inter and intra organisational integration The conference proceedings contain the papers presented at the ICEIMT conference in Valencia Spain selected papers presented at the different workshops and three papers on the initiative itself overview history and results The proceedings follow the conference structure with each section Parts 2 to 5 starting with the workgroup reports followed by a particular view on the section theme and additional papers either presented at the conference or during the related workshop Section editorials discuss the different contributions As stated in the paper by Nell and Goranson in section 1 the results from all workshops indicate the important role of business processes in the area of e commerce and virtual enterprises Sharing relevant knowledge between co operating partners and making it available for decision support at all levels of management and across organisational boundaries will significantly enhance the trust between the partners on the different levels of partner operations strategy policy operation and transaction Clearly business process modelling can significantly enhance establishment operation and decomposition of the required collaboration

Service-Oriented Computing -- ICSOC 2003 Maria E. Orlowska, 2003-12-03 This book constitutes the refereed proceedings of the First International Conference on Service Oriented Computing ICSOC 2003 held in Trento Italy in December 2003 The 38 revised full papers presented were carefully reviewed and selected from 181 submissions The papers

are organized in topical sections on service description service composition quality of service models service personalization service semantics business processes and transactions business collaborations service request and coordination service security and reliability infrastructure for service delivery service P2P and grid computing service and mobile computing and service computing and applications

Model-Driven Engineering and Software Development Slimane Hammoudi, Luís Ferreira Pires, Bran Selić, 2021-02-01 This book constitutes thoroughly revised and selected papers from the 8th International Conference on Model Driven Engineering and Software Development MODELSWARD 2020 held in Valletta Malta in February 2020 The 15 revised and extended papers presented in this volume were carefully reviewed and selected from 66 submissions They present recent research results and development activities in using models and model driven engineering techniques for software development The papers are organized in topical sections on methodologies processes and platforms applications and software development modeling languages tools and architectures

Advanced Information Systems Engineering Klaus R. Dittrich, Andreas Geppert, Moira C. Norrie, 2003-05-15 Since the late 1980s the CAiSE conferences have provided a forum for the presentation and exchange of research results and practical experiences within the field of Information Systems Engineering CAiSE 2001 was the 13th conference in this series and was held from 4th to 8th June 2001 in the resort of Interlaken located near the three famous Swiss mountains the Eiger Mönch and Jungfrau The first two days consisted of pre conference workshops and tutorials The workshop themes included requirements engineering evaluation of modeling methods data integration over the Web agent oriented information systems and the design and management of data warehouses Continuing the tradition of recent CAiSE conferences there was also a doctoral consortium The pre conference tutorials were on the themes of e business models and XML application development The main conference program included three invited speakers two tutorials and a panel discussion in addition to presentations of the papers in these proceedings We also included a special practice and experience session to give presenters an opportunity to report on and discuss experiences and investigations on the use of methods and technologies in practice We extend our thanks to the members of the program committee and all other referees without whom such conferences would not be possible The program committee whose members came from 20 different countries selected 27 high quality research papers and 3 experience reports from a total of 97 submissions The topics of these papers span the wide range of topics relevant to information systems engineering from requirements and design through to implementation and operation of complex and dynamic systems

Behavioral Specifications of Businesses and Systems Haim Kilov, Bernhard Rumpe, Ian Simmonds, 2013-03-09 Behavioral Specifications of Businesses and Systems deals with the reading writing and understanding of specifications The papers presented in this book describe useful and sometimes elegant concepts good practices in programming and in specifications and solid underlying theory that is of interest and importance to those who deal with increased complexity of business and systems Most concepts have been successfully used in actual industrial

projects while others are from the forefront of research Authors include practitioners business thinkers academics and applied mathematicians These seemingly different papers address different aspects of a single problem taming complexity Behavioral Specifications of Businesses and Systems emphasizes simplicity and elegance in specifications without concentrating on particular methodologies languages or tools It shows how to handle complexity and specifically how to succeed in understanding and specifying businesses and systems based upon precise and abstract concepts It promotes reuse of such concepts and of constructs based on them without taking reuse for granted Behavioral Specifications of Businesses and Systems is the second volume of papers based on a series of workshops held alongside ACM's annual conference on Object Oriented Programming Systems Languages and Applications OOPSLA and European Conference on Object Oriented Programming ECOOP The first volume Object Oriented Behavioral Specifications edited by Haim Kilov and William Harvey was published by Kluwer Academic Publishers in 1996

Fundamental Approaches to Software Engineering
Tom Maibaum, 2000-03-15 ETAPS2000 was the third instance of the European Joint Conferences on Theory and Practice of Software ETAPS is an annual federated conference that was established in 1998 by combining a number of existing and new conferences This year it comprised the conferences FOSSACS FASE ESOP CC TACAS and satellite workshops CBS CMCS CoFI GRATRA INT seven invited lectures a panel discussion and ten tutorials The events that comprise ETAPS address various aspects of the system development process including specification design implementation analysis and improvement The languages methodologies and tools which support these activities are all well within its scope Different blends of theory and practice are represented with an inclination towards theory with a practical motivation on one hand and soundly based practice on the other Many of the issues involved in software design apply to systems in general including hardware systems and the emphasis on software is not intended to be exclusive

Conceptual Modeling for Novel Application Domains

SDL 2005: Model Driven Andreas Prinz, Rick Reed, Jeanne Reed, 2005-06-02 This volume contains the papers presented at the 12th SDL Forum Grimstad Norway The SDL Forum was first held in 1982 and then every two years from 1985 Initially the Forum was concerned only with the Specification and Description Language that was first standardized in the 1976 Orange Book of the International Telecommunication Union ITU Since then many developments took place and the language has undergone several changes However the main underlying paradigm has survived and it is the reason for the success of the Specification and Description Language in many projects This paradigm is based on the following important principles of distributed applications Communication large systems tend to be described using smaller parts that communicate with each other State the systems are described on the basis of an explicit notion of state State change the behavior of the system is described in terms of local changes of the state The original language is not the only representative for this kind of paradigm so the scope of the SDL Forum was extended quite soon after the first few events to also include other ITU standardized languages of the same family such as MSC ASN.1 and TTCN This led to the current scope of System Design Languages covering all stages of the development process including in particular SDL MSC UML ASN.1 eODL TTCN and URN The focus is clearly on the advantages to users and how to get from these languages the same advantage given by the ITU Specification and Description Language code generation from high level specifications

Biocomputing 2017 - Proceedings Of The Pacific Symposium Russ B Altman, A Keith Dunker, Lawrence Hunter, Marylyn D Ritchie, Tiffany A Murray, Teri E Klein, 2016-11-23 The Pacific Symposium on Biocomputing PSB 2017 is an international multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance Presentations are rigorously peer reviewed and are published in an archival proceedings volume PSB 2017 will be held on January 4-8 2017 in Kohala Coast Hawaii Tutorials and workshops will be offered prior to the start of the conference PSB 2017 will bring together top researchers from the US the Asian Pacific nations and around the world to exchange research results and address open issues in all aspects of computational biology It is a forum for the presentation of work in databases algorithms interfaces visualization modeling and other computational methods as applied to biological

problems with emphasis on applications in data rich areas of molecular biology The PSB has been designed to be responsive to the need for critical mass in sub disciplines within biocomputing For that reason it is the only meeting whose sessions are defined dynamically each year in response to specific proposals PSB sessions are organized by leaders of research in biocomputing s hot topics In this way the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field

Uml Technical Report Format Methodologic Introduction

In today's digital age, the availability of Uml Technical Report Format Methodologic books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Uml Technical Report Format Methodologic books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Uml Technical Report Format Methodologic books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Uml Technical Report Format Methodologic versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation.

Furthermore, Uml Technical Report Format Methodologic books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Uml Technical Report Format Methodologic books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Uml Technical Report Format Methodologic books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries

often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Uml Technical Report Format Methodologic books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Uml Technical Report Format Methodologic books and manuals for download and embark on your journey of knowledge?
