Innovation in Islam Mehran Kamrava, 2011-04-18 In a clear and historically incisive argument Kamrava and the other contributors indicate how the Islamic concept of innovation Arabic bid'a is an essentially contested and adaptive concept Since the time of the Prophet Muhammad Muslims have vigorously argued about its meaning and how to apply it This incisive collection of essays range far beyond the confines of theology and jurisprudence integrating ideological concerns with the exigencies of mundane ones as well as crossing the sectarian divide of Sunni and Shia Dale Eickelman author of Muslim Politics The economic and political underdevelopment of the Islamic world is commonly attributed to conservatism rooted in Islam This splendid collection of provocative essays addresses the issue from several different perspectives and in various contexts Collectively the essays provide a broad introduction to the topic of innovation in Islam both through what they teach and what they invite the reader to pursue Timur Kuran author of The Long Divergence How Islamic Law Held Back the Middle East Muhammad brought new ideas and practices to the monotheistic tradition but Muslim scholars interpreting the Qur'an and ahadith sought to squelch ideas that smacked of innovation Such is the conventional wisdom But Mehran Kamrava leads a stable of distinguished scholars in demonstrating persuasively that innovation has never ceased to mark the Islamic tradition Indeed the greatest modern innovators may be those Islamists who denounce innovation These powerful essays overwhelm the conventional wisdom Robert D Lee author of Religion and Politics in the Middle East Identity Ideology Institutions and Attitudes

Mais le libéralisme économique n'est pas marié avec le conservatisme social. La thèse est aujourd'hui assez répandue et ce depuis la fin des années 1990. En 1978, elle claque comme un coup de tonnerre. Debray brise l'intouchable, c'est vilain de dire du mal de ce qui fut beau, il est inacceptable de déclarer que les acteurs d'hier sont des contestataires en peau de lapin. Ceux qui entendent la charge de Régis Debray la perçoivent comme venant d'une posture tiers-mondiste, cette pseudo-révolution au Nord qui ne bouscule en rien le système capitaliste, passe côté de l'enjeu majeur de l'époque qui est toujours notre actualité : redistribuer les cartes avec les pays du Sud où l'on se bat encore pour une vraie révolution. En fait, l'auteur décrit assez précisément des logiques et des lignes de force qui restructurent toute la société post-68, il inventorie toutes les idées qui s'effondreront bien plus tard en une série de dogmes servant la pensée unique, moins d'État, la politique ne vaut rien, l'écologie et le repli sur l'individualisme, l'écologie des femmes et des minorités, l'alignement de l'idéologie française sur l'idéologie américaine, notamment en matière économique. Par bien des aspects, le texte est minimal, il est parcouru de quelques visions fulgurantes, la libération des ondes et l'inondation de publicité demain de tous les médias. Debray avait vu juste sur la société qui allait avoir le triomphe éclatant dès le début des années 1980. Son texte n'a pas pris une ride et il est plus clairant que jamais.
