Ubc Faculty E Learning Resource Guide:

The e-Learning Handbook Saul Carliner, Patti Shank, 2016-05-12 The e Learning Handbook provides a critical reflection on the current state of e learning with contributions from the world s foremost e learning experts and best selling authors from academe and industry including Margaret Driscoll Brent Wilson Lee Christopher William Horton L Wayne Precht Harvey Singh Jim Everidge and Jane Bozarth Pat Brogan Patrick Parrish Marc J Rosenberg and Steve Forman Pat McGee Philip C Abrami Gretchen Lowerison Roger Cote and Marie Claude Lavoie Thomas C Reeves Jan Herrington and Ron Oliver and Patrick Lambe The book offers a comprehensive and up to date assessment of the technological design economic evaluation research economic and philosophical issues underlying e learning Each chapter includes a chart that summarizes the key take away points contains questions that are useful for guiding discussions and offers suggestions of related links books papers reports and articles Directory of ERIC Resource Collections ,1996 Directory of Eric Resource Collections, 1996 Belinda J. Taheri,1998-06 Lists 1 029 organizations that provide access to the Educational Resources Info Center ERIC databases and related resources Arranged geographically and grouped into three categories the U S outlying territories and other countries Designed to help users quickly locate organizations that offer ERIC resources and related services within a geographically short distance Organizations included do one or more of the following provide online or CD ROM access to the ERIC databases on a regular basis maintain sizable collections of ERIC microfiche and subscribe to and collect ERIC pub s or ERIC clearinghouse pub s **Making the Transition to E-Learning: Strategies and Issues** Bullen, Mark, Janes, Diane, 2006-09-30 Higher education institutions around the world are increasingly turning to e learning as a way of dealing with growing and changing student populations Education for the knowledge society means new skills and knowledge are needed and it means that lifelong learning has become a necessity Higher education institutions are looking to e learning to provide convenient and flexible access to high quality education and training that is needed to meet these emerging demands As they implement e learning however institutions are struggling with the many pedagogical organizational and technological issues Making the Transition to E learning Strategies and Issues provides insights and experiences from e learning experts from around the world It addresses the institutional pedagogical and technological issues that higher education institutions are grappling with as they move from conventional face to face teaching to e learning in its diverse forms *Simulation Scenarios for Nursing Educators, Third Edition* Suzanne Hetzel Campbell, Karen Daley, 2017-10-28 Second Edition was a winner of the AJN Award Unique to this book and what sets it apart from other books on simulations and clinical scenarios are the personal experiences that the authors bring to the chapters The authors passion enthusiasm and inspiration are truly reflected and demonstrated in each chapter Authors talk about lessons learned teaching strategies and in depth research Key highlights in the book include the practice application of how to develop implement and evaluate clinical simulations in your nursing program The authors make understanding simulation pedagogy an easy journey

and one that is exciting that educators will want to try and embrace even when there is hesitation and uncertainty Pamela R Jeffries PhD RN FAAN ANEF Professor Dean George Washington University School of Nursing

From the Foreword When employed as a substitute for real clinical time simulation scenarios have proven effective in bridging the gap between theory and practice Written by educators for educators this book provides all the knowledge skills and tools needed to make simulation feasible enjoyable and meaningful for students In this edition there are 25 new chapters 20 of them scenarios for all levels and specialties and 11 of those representing interprofessional education and team training This acclaimed text for nursing faculty provides detailed step by step guidance on all aspects of clinical simulation Each scenario is broken down into objectives pre scenario checklists implementation plans evaluation criteria debriefing guidelines and recommendations for further use Replete with diverse scenarios this comprehensive resource covers geriatric pediatric trauma obstetric and community based patient scenarios Chapters cover all levels of nursing students from pre licensure to doctoral level and contain the authors own advice and experiences working in simulation around the globe All scenarios have been updated to adhere to the new best practice simulation standards for design facilitator and participant criteria interprofessional criteria and debriefing processes A template for creating scenarios spans the text and includes student preparation materials forms to enhance the realness of the scenario and checklists for practice assessment and evaluation The revised edition now includes scenarios easily adaptable to an instructor s own lab an international perspective and a section on graduate nursing education and eleven new interdisciplinary clinical scenarios New to the third edition 20 brand new scenarios in anesthesia midwifery pediatric disaster and other specialty focused situations plus five new chapters Updated to encompass new simulation pedagogy including best practice standards New scenarios easily adapted to an instructor s own lab Integrating disability into nursing education with standardized patients and the use of IV simulations Interprofessional and international scenarios focused on areas of global concern obstetric hemorrhage neonatal hypoglycemia deteriorating patients A new section on how to write like a nurse in clinical simulation environments Teaching and evaluating therapeutic communication with a review of instruments for assessment

Key Features Includes information on how to integrate simulation into curricula Addresses conceptual and theoretical foundations of simulation in nursing education including an expanded chapter on the Framework for Simulation Learning in Nursing Education Includes a wide variety of practical scenarios in ready to use format with instructions Provides a template for scenario development Delivers recommendations for integration of point of care decision making tools Offers opportunities for enhancing complexity incorporating interprofessional competencies and debriefing guidelines Provides insight into pedagogical intergration of simulation throughout every aspect of the nursing curriculum with scenarios mapped to North American standards and the NCLEX RN Blueprint Includes details on learning lab and staff development from fundraising and building a lab Ch 6 to placement of AV Ch 7 to faculty development Ch 5 and self assessment for certification and accreditation Ch 54 A trauma informed approach to women s health Ch 33 Scenarios

with authors from North America USA Canada Brazil and Hong Kong *Blended Learning and AI in Higher Education*
Surbhi Sethi, Manju Singh, 2024-12-27 This book explores how blended learning and Artificial Intelligence are transforming higher education with a focus on India and global trends It explains the concepts of blended learning and AI discussing their benefits and challenges in colleges and universities The book offers practical advice for educators leaders and policymakers on implementing these technologies emphasizing how they can personalize and enhance education for all students It also addresses ethical concerns privacy issues and the evolving role of teachers in this tech driven environment Featuring examples from India and beyond the book provides a forward looking perspective on preparing students for a future shaped by these innovations A valuable resource it offers clear explanations and practical guidance for embracing technology in higher education **Directory of ERIC Information Service Providers** ,1990 Teaching and Learning in Digital World

Mercè Gisbert, Mark Bullen, 2015-06-11 Many reports over the last few years have analysed the potential use of games videogames 3D environments and virtual reality for educational purposes Numerous emerging technological devices have also appeared that will play important roles in the development of teaching and learning processes In the context of these developments learning rather than teaching becomes the main axis in the organisation of the educational process This process has now gone beyond the analogue world and face to face education to enter the digital world where new learning environments are being produced with ever greater doses of realism Teaching and Learning in Digital Worlds examines the teaching and learning process in 3D virtual environments from both the theoretical and practical points of view

Leadership in Social Care Zöe Van Zwanenberg, 2010 The latest research on leadership issues in social care is drawn together to provide a resource for social care practitioners service providers as well as academics researchers students

Resources in Education ,1997 International Comparative Approaches to Free Speech and Open Inquiry (FSOI)
Luke C. Sheahan, 2022-10-11 This book explores controversies surrounding free speech and open inquiry FSOI in various regions of the Anglophone world The authors argue that the past decade has seen a noticeable erosion of FSOI across the globe aided and abetted by university clerics and state apparatuses These groups policing of language and pandering to cancel culture the authors argue have narrowed the Overton window to the point of reinvigorating the push for blasphemy law within liberal democracies themselves and impeding certain avenues scientific research While most books on the subject discuss the American constitutional context of the First Amendment this book considers free speech in the wider context of other Anglo countries It also includes scholars from a variety of disciplines whose approaches will not only be ideologically distinct but demonstrate a diversity of disciplinary approaches and concerns **Interprofessional E-Learning and Collaborative Work: Practices and Technologies** Bromage, Adrian, Clouder, Lynn, Thistlethwaite, Jill, Gordon, Frances, 2010-06-30 Interprofessionalism an emerging model and philosophy of multi disciplinary and multi agency working has increasingly become an important means of cultivating joint endeavors across varied and diverse disciplinary and

institutional settings Interprofessional E Learning and Collaborative Work Practices and Technologies is therefore an important source for understanding how interprofessionalism can be promoted and enhanced at various levels in learners educational experiences particularly with regard to e learning and reusable learning objects given the potential to cross boundaries of time location and academic disciplines This book provides relevant theoretical frameworks and the latest case driven research findings to improve understanding of interprofessional possibilities through e learning at the level of universities networks and organizations teams and work groups information systems and at the level of individuals as actors in the networked environments

The Scholarship of Teaching and Learning Reconsidered Pat Hutchings, Mary Taylor Huber, Anthony Ciccone, 2011-07-12 Praise for The Scholarship of Teaching and Learning Reconsidered A worthy capstone that pulls together two decades of Carnegie Foundation projects on the scholarship of teaching and learning The authors review the genesis of these ideas and envision a future of continued integration of a culture of evidence in the world s universities and colleges Projects end but the work continues Lee S Shulman president emeritus The Carnegie Foundation for the Advancement of Teaching and Charles E Ducommun Professor of Education emeritus Stanford University This book captures the most important lessons from a decade of thoughtful experimentation with methods to improve the learning outcomes of American college students The authors have deep experience in institutionalizing various approaches that have been devised and endorsed by faculty in many kinds of higher education settings It will be a manual for those seeking to improve their own teaching and learning outcomes Katharine Lyall president emerita University of Wisconsin System The authors recount the history of research into one s own teaching further develop its conceptualization and make recommendations for how to bring it into the mainstream Collectively they have been at the center of the movement and have written spoken strategized and organized conversations and scholarly work on the topic for many years They present rich examples from many different environments and an unwavering vision of the benefits of the scholarship of teaching and learning and its potential Nancy Chism Indiana University School of Education Indianapolis This book reframes the literature on the scholarship of teaching and learning faculty development assessment and the future of higher education The writing sparkles with fresh analysis on teaching learning academic culture and the possibilities for change This book will help both individual faculty and entire institutions to enhance scholarly teaching and to deepen student learning Peter Felten assistant provost and director Center for the Advancement of Teaching and Learning and associate professor of history Elon University

Handbook of Distance Education Michael Grahame Moore, William G. Anderson, 2003-04-02 The second edition of this award winning book continues the mission of its predecessor to provide a comprehensive compendium of research in all aspects of distance education arguably the most significant development in education over the past quarter century While the book deals with education that uses technology the focus is on teaching and learning and how its management can be facilitated through technology This volume will be of interest to anyone engaged in distance education at either the K 12 or

college level It is also appropriate for corporate and government trainers and for administrators and policy makers in all these environments

Curriculum Materials Collections and Centers Rita Kohrman, 2012 This book captures the evolution of the education collections and services integral to teacher preparation Edited by Rita Kohrman education resources librarian at Grand Valley State University the book provides practical applications for curriculum material center CMC operations that focus on the fundamental needs of students faculty and current teachers Initial chapters focus on the foundations of place CMCs within theoretical and historical contexts their original goals purposes and services Succeeding chapters discuss how curriculum centers are evolving to meet the changes in teacher preparation now and in the future

Canadian Reference Sources Mary E. Bond, Martine M. Caron, 1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people institutions organizations publications art literature languages and history It lists books of a general nature as well as works in the disciplines of history and the humanities These large divisions are then broken down by subject genre type of document and province or territory Titles of national provincial territorial or regional interest are included in every subject area when available The contents of the book are indexed four ways by name title French subject and English subject And to facilitate browsing the major reference books those dealing with more than one subject or a large geographical region are also cross referenced Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages Entries for unilingual works include citation in the language of the publication and a bilingual annotation The annotations are descriptive and provide information on the content arrangements and indexing of works the availability of non print formats previous editions and title changes and related works Canadian Reference Sources will be an invaluable reference tool for future scholars and researchers
