More Equal Than Others Raffael N Fasel, 2024-02-21 Unprecedented demands have recently arrived at the doorstep of courts and parliaments: the world over nonhuman animals should receive some of the rights that have so far been reserved to human beings. This development has raised fundamental questions about the nature of legal rights and who should have them. *More Equal Than Others: Humans and the Rights of Other Animals* provides a sustained analysis of the fundamental rights of human and nonhuman animals to explore the issue of whether conferring fundamental legal rights to animals would undermine the equal status and rights of humans. Raffael N Fasel proposes an unorthodox but practical solution to this issue: the Species Membership Approach (SMA). According to the SMA, legal rights and similar entitlements should be granted to animals based on the species to which they belong, not their individual capacities. By pioneering an approach that focuses on species membership rather than individual capacities, the author demonstrates how fundamental legal rights can be extended to nonhuman animals without threatening the status and equal rights of humans. This book examines the antithetical nature of the human rights and animal rights conceptions that have so far dominated the debate and demonstrates how a middle ground can be reached between these opposing conceptions. Informed by the forgotten history of animal and human rights in the French Enlightenment, *More Equal Than Others* radically reimagines the spectrum of fundamental rights conceptions.

West meets East Geoffrey Williams, Mathilde Le Meur, Andrés Echavarría Peláez, 2025-05-27 Lexicography in its many forms is a very old practical discipline solving practical problems concerning word usage. The term word seems more appropriate than language in this context as lexicography addresses more questions relating to what we now call lexicology. As with all areas of human endeavour, what developed gradually through trial and error has eventually been subjected to a theoretical framework. The role of historical lexicography is to look back on the development of these highly varied word lists to understand how we arrived at the tremendous variety that characterises practice throughout the world. This volume is both a selection of expanded papers from one conference on historical lexicography and lexicology held under the aegis of the International Society for Historical Lexicography and Lexicology.

ISHLL in Lorient France in May 2022 and also the first in a new book series dedicated to the field The new series represents a collaboration between two sister associations ISHLL and the Helsinki Society for Historical Lexicography HSHL The volume contains texts in both English and French that provide insights into dictionaries their compilers and users using evidence from numerous languages across the globe It is also diachronic moving from topics on medieval usage to contemporary issues concerning open access and digital publishing in historical lexicography The title reflects the global scope of its authors and content encompassing Japan to the United States Eastern Europe to the United Kingdom and Portugal

Property Versatility and Copredication David Liebesman, Ofra Magidor, 2025-05-05 Nearly all properties are to a certain extent versatile there are many different ways to instantiate them Consider a light blue scarf and a dark blue gemstone They share the property of being blue despite being different kinds of objects and differing in the way in which they are blue The key insight explored in this book is that this apparently mundane observation should be extended many properties are considerably more versatile than theorists typically take them to be This insight turns out to be incredibly powerful in addressing a wide range of issues in the philosophy of language metaphysics and beyond One such issue is the problem of copredication Copredication sentences such as Lunch was delicious but took hours are common yet puzzling These sentences can be true despite seemingly ascribing incompatible properties it appears that only the food eaten can be delicious and only the event attended can take hours This book offers a comprehensive discussion of the problem of copredication including a critical evaluation of extant approaches to the problem and culminating with a defence of the Property Versatility approach to copredication In addition the book demonstrates how Property Versatility is a powerful tool in addressing a wide range of issues beyond copredication including the semantics of generics the metaphysics of establishments and repeatable artworks fictional discourse and the nature of ambiguity as well as a host of others

Telos Leonard Sweet, Len Wilson, 2022-12-13 Forget everything you think you know about the end and discover how you can start living a better story today no matter what the future holds Are we living through the beginning of the end The end has indeed begun but it is not the special effects explosion many of us imagine For too long we've gotten the end wrong which leads to poor decisions with dead end consequences To live a better Christian story we need a better vision of the end Telos argues for a new way of

looking at the end as the culmination of God's grand story. It introduces Jesus' most important word in describing the end: the Greek word *telos*. *Telos* is the rhythm of human history: the presence of God, the plot, purpose and completion of the story. The end is the kingdom of God and the kingdom is here and now. In the book, Rev. Dr. Leonard Sweet and Dr. Len Wilson challenge six false endings playing out in the world today which result in tragedy and despair. Through an examination of cultural and philosophical trends converging in today's chaotic times, Sweet and Wilson show how many of the problems plaguing American Christianity are rooted in bad theology and offer a better definition of God's kingdom, the present reality of the presence of God that gives us hope for today and tomorrow. *Telos* will help you gain an understanding of the philosophical and culture movements that fuel our wrong ideas about the end of the world and the problems they are creating today. A new perspective on time, past, present and future, and why God's kingdom is more than a place or singular moment in history. A positive vision of the future based on the true meaning of the kingdom of God. A new way of engaging culture without culture warring. A worldview that empowers you to live with more hope and peace every day, even in chaotic times. A lot has been written about the kingdom of God, but nothing like this. This book is an invitation to stop worrying about the future or running yourself ragged trying to build the kingdom and to instead step into the life of the kingdom that is available to you now. If you want to know what happens in the end, how *telos* helps us live in the stream of the Spirit and how to live a better story today, no matter what the future holds, read what may be the most important book of our time.

Reawakening the Public

Research University Renée Beville Flower, Brent M. Haddad, 2014-03-28. A core institution in the human endeavor, the public research university is in transition. As U.S. public universities adapt to a multi-decadal decline in public funding, they risk losing their essential character as a generator, evaluator and archivist of ideas and as a wellspring of tomorrow's intellectual, economic and political leaders. This book explores the core interdependent and coevolving structures of the research university: its physical domain (buildings, libraries, classrooms), administration, governance and funding, and intellectual structures, curricula and degree programs. It searches the U.S. history of the public research university to identify its essential qualities and generates recommendations that identify the crucial roles of university administration, state government and federal government.

On Hinduism Wendy Doniger, 2014-02-03. In this magisterial volume of essays, Wendy Doniger enhances our understanding of the ancient and complex religion to which she has devoted herself for half a century. This series of interconnected essays and lectures surveys the most critically important and hotly contested issues in Hinduism over 3,500 years, from the ancient time of the Vedas to the present day. The essays contemplate the nature of Hinduism, Hindu concepts of divinity, attitudes concerning gender, control and desire, the question of reality and illusion, and the impermanent and the eternal in the two great Sanskrit epics, the Ramayana and the Mahabharata. Among the questions Doniger considers are: Are Hindus monotheists or polytheists? How can atheists be Hindu, and how can unrepentant Hindu sinners find salvation? Why have Hindus devoted so much attention to the psychology of addiction? What does the significance of dogs and cows tell

us about Hinduism How have Hindu concepts of death rebirth and karma changed over the course of history How and why does a pluralistic faith remarkable for its intellectual tolerance foster religious intolerance Doniger concludes with four concise autobiographical essays in which she reflects on her lifetime of scholarship Hindu criticism of her work and the influence of Hinduism on her own philosophy of life On Hinduism is the culmination of over forty years of scholarship from a renowned expert on one of the world s great faiths
